Schools

What To Remember:

When your running in loops races they are generally in town around buildings or parks. This means that you will be travelling across the ground faster than usual so you need to be onto it. Firstly, recognizing the scale. You must adjust your map reading to expect things to turn up sooner than you would normally. Secondly you must be always planning ahead so you are on the move and have "flow" through the controls. This save time and cuts down on errors. And thirdly you must have fun!

HBOC Trainings-

If you haven't already heard about them you can read this now. Ross Morrison has been and is organizing trainings for all club members. Everyone is welcome and I have included the training dates on the coming events section of this flyer. Kaweka Challenge

The Kaweka Challenge is annual mountain race held very close to Hastings and Napier. The club help run the race and many members participate. The event is great fun and has some spectacular views. There is a grade and course for everyone so get your entries in and support the club. If you are unable to run but can help out please contact Tim Anderson.
