

KIWISPORT

KiwiSport – Dave Smith

b&w

2000

Dave Smith has mapped many of the Primary and Intermediate schools in the Napier – Hastings area for KiwiSport Orienteering.

The maps were hand drawn by Dave. They were designed to be used by young children, without compasses. Generally they are black & white, have no contours, have a scale expressed in “paces” and fit on an A4 page.

From 2000-2001 onwards these maps are gradually being redrawn using ocad and are listed under their own map names in the main HBOC Orienteering maps section.

See separate MapMasterKiwiSport or KiwiSport_DSmith documents for list of maps.

KiwiSport – Jane Herries

ocad

2014

Jane Herries applied for KiwiSport funds from Sport H.B. to introduce orienteering to Primary and Intermediate schools in the Napier-Hastings-Havelock North area, initially in late 2014.

Where the club had mapped schools as part of a bigger map the school area was cut-out and enlarged to fit an A4 page. Some schools were specially mapped for KiwiSport. (Some maps may also be listed in the MapMasterDoc as they could be used for club Summer Series events as sprint orienteering maps.)

See separate MapMasterKiwiSport or KiwiSport_JHerries documents for list of maps.
