Te Mata Park – TMP-M6

Notes.

- This is a Line course.
- This course has some off-track navigation.
- You navigate the course in the order shown on the map.
- The distance shown on the map is the length of the straight lines.
- **The Start and End labels are on the right-hand Notice Board's left-hand post, above the Main Gates carpark.**
- Control Points have a label as shown above.
- The lines joining the control points only indicate the direction from one point to the next, do not follow the line. Use the details shown on the map to determine the best route for you to take to get from one point to the next.
- **Beware of the impassable cliffs.**
- **Respect the Park rules, do not run/walk on the 'Bike only' tracks.**

Maps and Courses.

- The Start point is indicated on the map by a 'triangle' symbol.
- The End point is indicated on the map by a 'double circle' symbol.
- The Control Points are indicated on the map by 'circle' symbols.
- The control description panel gives you a brief description of the feature the label is attached to at the control point, plus the number on the label and the order in which the control points are to be visited.

The iOrienteering App

You can time your run with the iOrienteering app. Download the iOrienteering App from the App Store for your phone. (Visit www.iorienteering.com for more details.)

Orienteering course maps for Hawke's Bay, for use with the iOrienteering App, are available from the club website at www.hborienteering.com/parko.

To use the iOrienteering app.

1. Scan the COURSE QR Code on this page.
 2. Scan the START QR Code when you get to the start point.
 3. Navigate the course scanning each control point in turn.
 4. Scan the END QR Code when you get to the end point.
5. You might also create a login on the iOrienteering website and upload your results.
- We recommend turning the screen off between control points.
 - Leaving the screen on may cause scanning to fail after 1 hour due to power saving features on some phones automatically turning off the camera. Turn the screen off and on to restart scanning.

Legend

	Contour, Index contour
	Form line
	Slope line
	Earth bank
	Erosion gully or trench
	Small erosion gully
	Knoll - small / elongated
	Depression - large / small
	Pit
	Broken ground
	Impassable cliff
	Passable cliff
	Boulder, Boulder field
	Stony ground
	Open sandy ground
	Open land
	Open land with scattered trees
	Rough open land
	Rough open with scattered trees
	Forest: easy running
	Forest: slow running
	Undergrowth: slow running
	Forest: difficult to run
	Undergrowth: difficult to run
	Vegetation, very difficult to run
	Vegetation, forbidden to cross
	Vegetation, forbidden to cross
	Distinct cultivation boundary
	Distinct vegetation boundary
	Prominent bush or small tree
	Prominent single tree
	Prominent vegetation feature
	Unpaved track (non-urban)
	Unpaved track (urban)
	Unpaved footpath
	Paved footpath or track
	Small paved footpath or track
	less distinct small path
	Power line

HBOC Park-O Orienteering

Maps

The maps are orienteering maps, using the special Sprint Orienteering mapping colours and symbols with the 'north lines' pointing to magnetic north. Take your time to study the map and the legend. Most importantly note the more dangerous features (eg) Impassable Cliffs, Roads, Impassable vegetation, Out-of-Bounds areas, Prohibited Access areas. Our maps are not perfect and may be updated now and then.

Courses

Orienteering courses in New Zealand are graded by a colour code from beginner to expert level (White, Yellow, Orange, Red.) The public 'Park-O' course are generally Yellow and Orange level.

Standard line courses involve navigating your way from control point (shown as a circle on the map) to control point, in the sequence shown on the map. You use the map to determine the best route that suits your fitness and abilities. Although the line between the control points is the shortest route it is often either impossible to follow, due to dangerous or impassable features shown on the map, or it is the slowest route due to difficult navigation or excessive climb. The Control Description panel on the map shows the sequence number in column 1 and the control code in column 2.

Score courses have a time limit but no set sequence for visiting the control points. You need to take time to plan how many control points you can visit within the time limit. Points are gained for each control point visited, but points are deducted for finishing late. The Control Description panel on the map shows the points value in column 1 and the control code in column 2.

Responsibilities

It is a condition of providing these maps and courses that any participants undertaking the activity accept full responsibility. You are responsible for your own safety. No liability or responsibility is accepted by the Hawkes Bay Orienteering Club or its members.

The Park-O courses are in public areas, please respect the Park and other users of these areas.
