WINDOW GAZING ON THE HATA PEAK -BRIAN CRAWFORD.

"That's the hairpin on Chambers Walk and the control is at the foot of the cliff on this side of the children's grass slide," I thought to myself, I was at the start of Ted's Window course and it looked like another piece of cake on our old hunting ground. I ignored the glances of earlier competitors as I crossed the carpark and started down Chambers walk. At the foot of the cliff there was no control-so that's why they stared. Now what is to be done! The only other hairpin on the map was on the map below the lookout and yes there was a small cliff further down.

I pass Barbara and Fiona on the "B" course going the opposite way but don't explain my error, thank goodness this time the control is there. I set my compass to avoid the same mistake again and go flat out down the hill to make up for lost time. I am soon out of the park and halfway to Havelock North-the classic 180 deg. mistake. The next leg is up that re-entrant to the vegetation boundary. I promptly forget which vegetation boundary and pass Barbara and Fiona again going in the wrong direction. Control 5 is on a mountain peak and I decide the correct course is the direct one-it is not. I claw my way up the vertical grass slope. On top the instructions read "Bearing 75 deg. 400 metres". The bearing is straight along the line of the cliff, an impossible choice, I pick the high route-wrong again. Barbara and Fiona are strolling out to the Magpie wood as I run to my control from the far side. I am beginning to doubt my compass as I scramble out of the valley, it is swinging too much to the east. I check it carefully as I travel along the next ridge. The control is V.E. and I see it ahead but well over to the right. This compass is mad, now it's swinging west, where can I get a new one?-Yes Ted has just got that new agency. A horrible thought crosses my mind, surely he wouldn't dare but??? I fall into the depression, V.E. is at my feet, the control to the right was V.F. Very sorry Ted. (By the way have you seen his new thumb compass for a fast technique that does away with setting.) The next control description reads "Fence line" but which side I wonder as I run along it. But Ted has done that properly and it can be reached from either. I bound on down the hill overshoot the last control by a couple of paces. As I return, Barbara and Fiona wave from the other side of the valley.

IT is far and away the most enjoyable and interesting course I have run on the Peak for a very long time. I can even laugh when Fiona asks why I think it is easier to find controls from the wrong side!!!!

If you are making record time, you are travelling in the wrong direction.
 When you are certain where you are, you are certainly off the map.
 Any route that appears easy is almost certainly a mistake.
 Any significant feature will occur at the juncture of two raindrops and a map fold.
 On a wet day there are only two grades of orienteer; those with glasses and those without.
 If there is going to be a misplaced control, it will be on your course.
 Do not try to solve all course problems at once - learn to dread each one as it comes.
 If you lead a competitor into a control, you can be sure he will not return the compliment.
 When only an Act of God can prevent you winning, the good Lord will invariably oblige.
 The day you win an event it will be a 'no run'.
 If you think the course is tough now, just wait!

TRIPLE-M

MINI MOUNTAIN MARATHON

SUNDAY 11 DECEMBER 1983

MT HOLDSWORTH

WARM UP TO NASEBY MOUNTAIN MARATHON

There will be three courses available (20km, 12km and 8km). Courses must be competed in pairs, and each pair must carry a pack containing hat, gloves, full body clothing, whistle and adequate food. Both members must visit the control sites together.

There will be a mass start for all courses at 10 a.m. Registration from 9 a.m. The event will be run on two pre-marked colour maps - Mt Holdsworth Road and Tea Creek.

Mt Holdsworth Road

1:15,000 with 10m contours. Steep, mainly young pines of good runnability. Height difference between Mt Holdsworth Road and Pope's Hill - 350m.

Tea Creek

1:15,000 with 10m contours. Moderately steep, mainly farmland with areas of bush.

The start will be on Mt Holdsworth Road. Turn off State Highway 2 south of Masterton at Norfolk Road (between Waingawa Bridge and Borthwicks Freezing works) and follow the signs for 10 km.

There will also be two shorter casual courses available - entry on the day.

Entry Fees: \$6.00 per pair (4 maps per pair). In addition each pair will also be given 2 pre-marked black & white maps (scale 1:40,000). Entries close with the Secretary on Friday, 25 November. Late entries accepted at double entry fee.

Certificates will be awarded to all finishers.

Contestants take part in this event at their own risk.

1983 WOA Championship Entry Details

Courses will be set to give NZOF recommended winning times, based on performance of top NZ competitors on similar terrain. B grades, for which there are no recommendations, will be set navigationally easier courses with winning times 75% of the corresponding A grade. However we make an exception in the case of M and W21, in which we provide A, B and C grades. The A grades will be 10min longer (90 and 70min winning times), the B grades will be no less difficult but with 75% of the A grade times, while the C grade will be easier and 50% of the A grade times.

While the courses have not yet been set, they will be grouped as follows:

Course 1	M21A	9km approx
Course 2	M35A, M21B, M19, W21A	6km
Course 3	M17, M43A	5km
Course 4	M15	5km
Course 5	M50, W21B, W35A, W19	3½km
Course 6	M35B, M21C, M13, M43B, W17, W15	3½km
Course 7	M56, W43A	2½km
Course 8	W21C, W13, W35B	2km
Course 9	W50	1½km
Course 10	M12, W12, W43B	1½km

There will also be two casual courses to be entered on the day, one suitable for children, and a long one suitable for harriers. Entries close with those received by the Co-ordinator at the address below by 5pm on 30 Oct 83. Late entries may be accepted at the Co-ordinator's discretion at double fee. One set of results and the event booklet will be posted per entry form. Ordinary entry fees are \$5 Senior, \$2.50 under 19, Family maximum \$12.50.

1983 Championships

HIDDEN VALLEY
27 November

Hidden Valley is a 6km² new area, only 14km from the centre of Upper Hutt. It consists mainly of farmland, but 10% is in native bush of good passability. There are gentle slopes on the lower levels near the woolsheared event centre, and steeper slopes rising 200m will be met on the longer courses

WOA Championship titles will be awarded to winners of all grades. In addition the event qualifies for credits towards the NZOF Badge Award scheme, according to performance relative to grade winners.

Supporting activities will be offered on the day before, Sat 26th. A warmup event will be held on a similar area (though the map details will not be the same as for Hidden Valley). In late afternoon there will be a forum to exchange experience on "Orienteering in Schools". This will be near a nominated eating-place where orienteers can gather for dinner and a chat. Billets will be offered to out-of town competitors to promote the social side of orienteering.

There will be NO Tee-shirt offer. However we promise a superior competition, amenities, and results service, with assistance from the Data Services Division of AWA NZ Ltd.

So... Enter now!

THE FAMILY SPORT-SOUTH AUCKLAND ORIENTEERING , AUGUST 1987

Don't make me go on a course, Mum.
I'd rather stay in the car.
I'll just eat my marmite sandwiches up.
I won't go exploring too far.
And I promise not to lock us out
like I did the time before.
It was just a pity I pushed that button
before I closed the door.

Don't send me out today, Mum.
I'm only ten and a bit.
I've got years of orienteering ahead
and I'm really not feeling fit.
My tummy's got this funny twinge,
and I think I might be sick.
If I lie in the back of the car for a bit
that will probably do the trick.

It's not that I don't like it, Mum.
It's just 'cos I've got this pain,
and when I turned the radio on
the weather man said it would rain.
So you just go and do your course, Mum
while I sip me Tropicana.
I promise I'll go on next week's run.
I like it at Omana.

I suppose I'll go if I really must
and I'm sorry I spilled my drink.
Johnny upset that milk last week,
that's why there's such a stink!
Could we stop at the shop that's on the way home
and buy me a caramel bar?
And please just do the wayfarers course.
The Novice one's much too far.

I think you've done the map wrong, Mum
The bloody thing's not here.
Well! You say that when you get lost
You didn't have to whack my ear!
OH, look it's there behind that
tree.
Come on Mum. Let's run.
Let's try and beat that family ahead.
Orienteering's fun.

NOMINATIONS THE DOCK CUP.

This cup was presented to the Club by a foundation Member, Charles Dock. It is awarded to a member of the club who has given outstanding service to the Hawkes Bay Orienteering Club. Nominations for this cup are to be forwarded to the Secretary stating the sphere of service or the reason for nomination. Nominations close Monday 24th October. The cup will be presented at the A.G.M.

YOUTH GRADE.

1. AKINA SCOUTS. R. Plummer, C. Allen, M. Hyslop	62.28.
--	--------

Thanks go to Dave Smith for organising this event. It was a bit disappointing there were not as many entries as previous years but perhaps this was due to the distance to Phillip's Bush compared to the closeness of Te Mata. Nevertheless I'm sure all who went to the event enjoyed the sunshine and fresh air!

PROGRESS REPORT FROM THE TWO DAY.

Our Co-ordinator Roger Bee,
 Reports things are going favourably.
 Jan and Sharon have sewn away,
 Making 40 control flags, not in one day!
 Ross and friends have made the stands,
 It's great how things get done with so many hands.
 Brian and Dave. C. are setting Day One.
 I've heard their courses will be fun.
 Dave .M. and Colin are setting day Two
 Reports are progress is favourable too.
 Oct .4th was the night of the draw
 290 entries spread on the Bee's floor.
 There's a new system for fixing the cards to the maps.
 A Quik Stik label, no more compass mishaps.
 A time machine prints out the times we need,
 Results should appear at incredible speed!
 On Friday or Saturday, not before,
 We need a work crew of eight or more.
 To set up the starts and the finish too
 And even someone to dig the loo!
 So don't be slow and don't delay,
 Give Roger Bee a call today. Phone 87945.

HOW AWARE ARE YOU OF THE N.Z.O.F. RULES?

All the meetings held by our club are run on these rules and following the running of two O.Y. events it was brought to my attention that perhaps the following rule should be published in the newsletter.

RULE 32. Fair Play

- 1-A competitor shall not seek to obtain unfair advantage over his fellow competitors.
- 2-It is prohibited to obtain outside help, collaborate over running or navigating or intentionally run with or behind another competitor during the race in order to profit from his skills.
- 3-Attempts to find out beforehand the location of the competition area and prior investigation of this area is forbidden.
- 4-A competitor shall not seek to obtain information from other competitors, team officials, event officials or spectators during the competition.
- 5-A marked route within a course shall be obligatory for the competitor.
- 6-Competitors who have been proved to have contravened these rules shall be disqualified.
- 7-Once a competitor has crossed the finish line he shall not go back into the competition area without permission from the organisers.
- 8-A competitor who retires shall announce this at the finish on handing in his control card and, when requested to do so, his map. He shall in no way influence the competition nor help other competitors.

.....

SOME NOTABLE ACHIEVEMENTS BY CLUB MEMBERS

- Welcome to ANTHONY RICHARD LLOYD a bonny boy born to Linda and Maurice. A new brother for Anita to play with and another orienteer for the club!
- Congratulations to KYLIE WATSON and HEATHER MARDON on passing their piano examinations.
Congratulations to FIONA SAPSFORD on passing her ballet examination.
- Congratulations to DANIEL HOLT on two counts, firstly for his award for designing the ZOOM FLOOM for the Hawkes Bay Science Fair. Secondly for drawing a prize winning monster in the Westend Plaza pavement art contest. Was it a self portrait or was it Dad?
- Congratulations also to ROWAN SAPSFORD on coming third in the 8yr boys chess tournament held in Hastings.
- Congratulations to JAMES WATSON on completing his first marathon. It was the Countrywide, Hastings. His time was 3hours 55minutes.

ORIENTEERS ACROSTIC

The grid below there are 100 words which have an orienting connotation. They go in all directions, but all are in straight lines (so there is no route choice!). Try to find them all, and then use the left-over letters to make the name of a New Zealand orienteering venue.

If you have trouble finding all the words, you will find a clue on page of this edition of Compass Points.

ACROSTIC CLUE

If you are having trouble finding (at least) a hundred orienteering words, the following may help you: There are 22 words heading East (i.e. like the word START in the top left corner), 10 West, 14 South, 11 North, 15 N.E., 9 N.W., 9 S.E., and 13 S.W. If you still have difficulty see page for another clue.

ANOTHER ACROSTIC CLUE

If you refer to your library of maps you will find that:- 15 of the words appear on the Te Mata colour map, 23 are on the Gwavas North map, 12 are on the Phillips Bush map, 15 are on the Raretu map, 21 on the Tuki Tuki map, 23 on the Smedley map and 20 are on the Promised Land map. (It should be noted that, in some cases, the word on the map is longer than that in the acrostic - for example, the word 'fieldwork' appears on most of the maps and the word 'FIELD' is in the acrostic). (That's two words given you!) If you STILL have trouble see next PASS POINTS.

THE MT IDA MOUNTAIN MARATHON 1984

10th/11th January

Below are some details about the mountain marathon following APOC '84. Entry forms will be sent out as soon as we have confirmed a sponsor, hopefully within the next few weeks.

This event, for teams of two, will be a tough test of mountain navigation, endurance and the safe traverse of unknown hill country. All competitors are expected to be physically fit.

The Ida Range of hills lies to the north of Naseby overlooking the Naseby State Forest. Summit heights are in the region of 3000' - 5000' with drops of 1000' - 2500' into the valleys. Sparse tussock covering will make the going good.

A special 4-colour map is being prepared with the help of the Lands and Survey at a scale of 1:50,000 with 100' contours.

Provisional Courses:-

- A 2 days with overnight camp. Both team members must be 18 or over. Total distance about 60k.
- B 2 days with overnight camp. Both team members must be 16 or over. Total distance about 50k.
- C 2 separate one-day courses. Return to base overnight. Both team members must be 16 or over. Total distance about 35k. The first day's course, about 18k, may be entered separately.
- D 1 day course, Tuesday 10th January. Total distance about 25k.
