**NZOF NEWS NZOF NEWS NZOF NEWS NZOF NEWS**  
**SEPTEMBER 1994**

**NZOF QUESTIONNAIRE**

A reminder that it is not too late to send in your questionnaire. We have had a good response to date with some interesting percentages. This questionnaire will be used to identify who/where the federation can go to for future sponsorship. So; please help us - no names are required on the questionnaire.

**COURSE SETTING COMPETITION - 1994(1995?)**

There is still no offers to organise this years Course Setting Competition. Isn't there a club willing to do this competition? The NZOF Secretary would love to hear from you. And yes; certificates are all but completed with last years winners to be sent one as soon as they are ready.

**1995 A-NZ CHALLENGE TEAM MANAGER**

The NZOF Council are now looking for nominations for Team Manager to next years A-NZ Challenge in Australia. The challenge will be held in ACT on the 26 & 27 August 1995. Please send nominations to NZOF Secretary.

**NEW NATIONAL SQUAD MANAGER**

Rob Crawford (Central Club) has been appointed the National Squad Manager. Bill Teahan (Hamilton) has had to resign due to University studies. Rob's appointment was approved at the July Council meeting.

**EARLY 1994 VETERAN WORLD CUP RESULTS**

A Finals:	W35	Gillian Ingham (33rd)	M35 Malcolm Ingham (41st)
	W45	Anitra Dowling (8th)	M45 Michael Wood (39th)
		P. Ablett (32nd)	
	W55	Hillary Weeks (62nd) & Christine Crate (79th)	
B Finals:	W45	Kathy Farquhar (52); Helen Carman (65)	
	W55	Anne Scott (19); Jill Brewis (30); Heather Clendon (31)	
	M55c	Colin Tait (44); Maurice Penny (45); Graham Peters (59)	
	M55d	Tom Clendon (25)	
	M60b	Andy Brewis (25); Roger Weeks (25)?	

### 1995 VETERAN WORLD CUP

This is earlier next year - 29 May to 02 June 1995 at St. Petersburg, Russia. I now have a entry form and details for this event. I am not sure whether more will be sent but, I will send a copy to those who ask for one. Entries close 01 March 1995.

### 1995 HILLARY COMMISSION FUNDING

The bulk of the NZOF's application has been approved by the Hillary Commission. But before we receive our funding the NZOF is required to implement a Drug Policy! I have been working on this (albeit a bit slowly) but, now it MUST be put in place. More on this below. We all want money for this and that and the NZOF has been and is, very grateful for the Hillary Commission's support BUT; time is now arriving that their contribution to the NZOF is being greatly reduced. We must NOW start planning and accepting internal changes to improve our income. Maybe this is an issue to be debated at the 1995 Annual Seminar, under " Year 2000 "?

So; the funding news for 1995 is:

		NZOF Contrib.	HC Contrib.
Promotions	[ National O-Week/New Areas/ Outdoor Education Centres/Handbook.]	4000	4000
Publicity	[ Media Exposure/Awareness Programs ]	500	6000
		<hr/>	<hr/>
		4500	10000
Coaching		10000	7000
IOF Presidents Conference, 1995, Germany (This conference will be two fold; one to represent NZ and the other is to canvas IOF officials for NZ's Bid to Host the 2000 Veteran World Cup.)		1500	1500
		<hr/>	<hr/>
		16000	18500

The NZOF applied for funding to prepare for our Bid to Host the 2000 Veteran World Cup but, this will be approved soon. No funding was approved for an Executive Officer.

4

## NZOF DRUG POLICY

As touched on earlier; the NZOF is required to implement a Sport Drug Policy to receive future funding from the Hillary Commission and NZ Sports Foundation. I will be giving this policy some urgency over the next several months and will let clubs know what the outcome will be; in particular how/who it will effect. Once a policy is sorted out it will be approved at (hopefully) the next Council meeting. We are required to include "Disciplinary Powers" in our constitution; with a ammendment submitted to delegates at the 1995 AGM. Also; I plan on initially, holding two education meetings on the drugs policy - one with the National and Development Squads and coaches/managers, as soon as practicable and another at the 1995 Annual Seminar. Drug Testing now takes place at our World Championships and it is in our sports interest that national federations follow suit.

## REMITTS/NOMINATIONS/SILVA AWARD

This may not be the right place but the wider the message, the better. This is an early reminder to clubs for the 1995 AGM.

- Remits - Please start planning all those remits for the 1995 AGM. Only from clubs, sub-committee's and Council. I would appreciate it that all remits are received by the NZOF Secretary by the 30 November 1994.
- Nominations - Start looking at whether those from your committee / club would like to be (re-) elected at the 1995 AGM and send in by 30/11/94.
- Silva Award - The Silva Challenge Award is an individual award to one that has contributed most to orienteering over recent years and in particular, in 1994. PLEASE, PLEASE; send your written nomination early. Last year I heard about one but no written nomination was received in time. Aim for 15 December 1994 to have them sent to the NZOF Secretary.

The NZOF acknowledges the support of the Hillary Commission, the NZ Sports Foundation and Silva.

**MINUTES OF NZOF COUNCIL MEETING - 30 JULY 1994.**

Minutes of the meeting of the Council of the New Zealand Orienteering Federation (Inc.) held at 6 Totara Road, Whenuapai, Auckland on the Saturday 30 July 1994 from 9.30am.

**PRESENT.**

President	Stan Foster	Vice-President & SI Member	Robyn Davies
Secretary	Les Warren	AOA Member	Lesley Stone
Treasurer	Barrie Foote	WOA Member	Beverley Holder

**APOLOGIES.**

CDOA Member     Gary Farquhar

**MINUTES OF PREVIOUS COUNCIL MEETING.**

The minutes of the Council meeting held on the 30 April 1994, were taken as read.

**MATTERS ARISING FROM MINUTES.**

There were no matters arising.

**CORRESPONDENCE.**

It was resolved that the inwards correspondence be accepted and that the outwards correspondence confirmed.

**BUSINESS FROM CORRESPONDENCE.**

1. Letter from the "new" Marlborough Orienteering Club was received, requesting details on what was required to join the federation.
2. Several letters from clubs have been received, in requesting how they and the federation stand with the Privacy Act and the Health and Safety Act. The NZOF Secretary is to follow these matters up and will then report back to all clubs.
3. Responses from clubs on the Selectors Panel; Social Membership and Sponsorships were taken into account when discussing these topics; which are replied to under their heading latter on in these minutes.
4. Letter from Ken Dowling re Rogaining and the NZOF. Les Warren to reply.
5. Letter from Dunedin Club with their concerns on the selection of the nationals (yet again) for 1996. The Fixtures Officer will be asked to reply as Council did not have all details.

There being no further business from correspondence.

## 1994 WORLD CUP REPORT.

The final World Cup committee meeting was held at the end of May 1994 and the minutes and the report was discussed at this Council meeting. For our first major IOF event, Council felt we benefited from the exposure and the wonderful results, but; financially it was disappointing. A full report on the 1994 World Cup is attached to these minutes.

## NZOF COUNCIL, ACTION LIST.

A Action List has been implemented and will be up-dated from each Council meeting with it's purpose to ensure Council members carry out duties and not just left to die away. After each Council meeting, Council members will receive a new list which, is to be reported on at the next meeting with questions being asked why issues have not been done and, a pat on the back if done.

## 1995 ANNUAL SEMINAR.

Les Warren produced a draft pamphlet for comments. Enclosed with these minutes is the 1995 NZOF Annual Seminar notice.

## SOCIAL MEMBERSHIP.

The memo sent to clubs in May 1994 had some-replies received. Refer seperate memo on this issue.

## SPONSORSHIP.

1. Proposal from Beverley Holder.  
There was a 30% response from clubs with mixed fevs. Beverley received good support from some Wellington Clubs and therefore; will work in this area initially.
2. MAPsport Shop Proposal.  
Of the 30% response, none opposed the MAPsport Shop Sponsorship Offer. Council will inform MAPsport Shop that the NZOF approve this offer with the provision that " an event organiser reserves the right to waive this agreement for specific events."
3. Ampro Sales 5 yr. Sponsorship Agreement.  
Council had concerns with one/two matters and will seek clarification before signing this agreement. Members will be advised any signing as soon as possible.

## NZOF DRUGS POLICY.

This is (unfortunately) dragging on! Our original legal person has been very busy and Council will try and find another avenue. Les Warren will continue to follow-up, with clubs being informed once an outcome is reached.

## 2000 VETERAN WORLD CUP.

With discussions with many people, Council has decided that; if NZ is approved to host the 2000 Veteran World that, the event should be run by clubs. Therefore; attached with these minutes is an "Ammended Notice of Interest " to clubs.

## GENERAL.

1. NZOF Secretary to write to the Australian Orienteering Federation on the future set-up of the Australia - New Zealand Challenge. Also; on the possibility of Kiwis attending the Australian Institute of Sport?
2. Some Council members made comment that, some club secretaries and individuals are expressing personnel views on issues that require committee views. I ask you, to please don't use personnel views when replying on behalf of your club. Any club committee replies that have a personnel view, will not be considered in future Council discussions.

This being all the business discussed; the meeting finished at 5pm.

NEXT COUNCIL MEETING: 19 NOVEMBER 1994.

Les Warren  
NZOF Secretary

## WELLINGTON AREA 3 DAY EVENT

LABOUR WEEKEND 22nd - 24th October 1994  
(all 3 days times count for weekend challenge)

DAY 1 - Saturday 22nd October

EVENT - Wellington Area Championships (Badge status)

MAP - Knottingly

PREVIOUS USE - APOC 94 individual championships

TERRAIN - Forest, intricate sand dune map

SCALE - 1:15000 & 1:10000 2.5m contours

LOCATION - Santoft Forest - SW of Bulls (Manawatu)

SETTER - Bill Anderson

CONTROLLER - Graham Teahan

CO-ORDINATOR - John Doolan

Classic length courses offered. Only Wellington area competitors qualify for trophies. Certificates to fastest in all grades.

DAY 2 - Sunday 23rd October

EVENT - Wellington Short O Championships

MAP - Watchtower

PREVIOUS USE - WOA Champs 1993

TERRAIN - Forest, farmland, sand dune map

SCALE - 1:10000 5m contours

LOCATION - Waitarere Forest - S of Foxton (Manawatu)

SETTER - Chris Gelderman & Predag Zatezalo

CONTROLLER - Ted van Geldermalsen

CO-ORDINATOR - Michael Wood

M/W21E will run before the rest in both am & pm events with commentary.

Prize giving for WOA champs & W OY series to be held between short O's.

DAY 3 - Monday 24th October

EVENT - Day 3 Individual event - Badge status

MAP - Whirokino

PREVIOUS USE - Major events - Easter Multi day 1992, OY, Frank Smith Trophy

TERRAIN - Forest, farmland, intricate sand dune map

SCALE - 1:10000 5m contours

LOCATION - Waitarere Forest - S of Foxton (Manawatu)

CONTROLLER - Brian Long

OTHER INFORMATION - Best locations for accommodation would be Foxton, Levin, Bulls, Sanson or Palmerston North. A coaching conference is to be held at Flock House (20/21st October) by Michael Wood. More details will be sent out about this event later.

Mapping Seminar - Sunday 31st July 1994

With the same enthusiasm Hawkes Bay members how towards all things orienteering, there was a healthy turnout at the Telecom building in Havelock North. The first task of the day, in true orienteering style, was finding the venue...

Ken Holst, ex Rotorua Orienteering Club and now a Hawkes Bay convert, had kindly offered to enlighten and up-date us on mapping techniques. We covered the making of maps from the photogrammetry, setting up of the field-checker's copy, to the field-checking itself and specifications for cartography.

If 'the man in the street' thought we were a strange bunch before, he'll have no doubts now - there we were in suburbia Havelock North, clipboard in one hand, pen in the other, circling a pile of rubbish ...

We were, in fact, applying field-checking skills to produce a free-hand map of what we saw and our efforts were commendable - we all produced an identifiable piece of rubbish!

It was on to Maraeatotara then, leaving Havelock in the rain. After an odd progression of lunch stops (lemmings of the world unite), we eventually arrived at the second venue of the day.

Armed with a base map we were able to have a go at producing our own version of 'Maraeatotara re-visited'. I personally have field-checked before and found this attempt no less mind-boggling that the last - Maraeatotara being pretty mind-boggling at any time. We gained a keen respect for the field-checker's skill and I for one am happy to leave this task to the experts. Others, you'll be pleased to know, showed a confident, accurate ability and will no doubt use their skills to help the club field-check maps in the future.

This type of exercise is great for refreshing your memory on map specifications and improving your interpretation and 3-D visualization. It had the added bonus, for Michelle, of discovering how not to get up hills...

A worthwhile day was had by all and we thank Ken for his time.

Caroline W

## CHARLIE'S REVENGE?

Charlie has belonged to the Hawkes Bay 'O' Club for about four years and is well known for two things, his unfailing cheerfulness and the fact that he gets his monies worth on a course. Bluff Hill was to be his first go at planning courses and running an event. A stray remark when he came to collect the maps for the event had me wondering did we really know Charlie? The glint in his eye and muttered "now I'm going to get my revenge for all those long courses" made me view the coming event with some trepidation. The list of course lengths certainly bore out his intentions even the C course was more than 4 kms. How ever I decided to take up his challenge and set off with map and pen to decipher his clues. No. 1 butterflies on a bath, who would have a bath in full view? Oh there it is it's being used as a flower trough. Up the steps turn left and who works with who? Ah the community help sticker that was cunning. H'mm down here count the steps and back to the memorial that's four done. Whats for sale how many barriers beware of what? Do I have to go up that street its very steep, there is no other way so take a deep breath and climb. The bowling club began in '74, 1874 that is, and whats this in the gully a giant bird bath? Only a couple to go, whats free? Oh I see they are giving away top soil, right its all down hill from here first the steps and who's allowed up there, ah residents only. Thats it I've finished and it didn't seem to be that long after all. Many thanks Charlie for a most interesting course.

Sharon Mardon.

P.S. Dont know where the "revenge" came into it.

O'RINGEN (18/7 - 22/7) AND  
VETERAN'S WORLD CUP (2/8 - 5/8)

This article will not win the Derek Morrison prize for journalism but will hopefully give you some insight into orienteering on the other side of the world.

Due to my concern about spending any length of time away I travelled continuously for 48 hours to arrive at Ornskoldvik the day before the start of the 5-day. This is definitely not recommended and resulted in a poor physical effort on the second day.

Arriving at O'Ringen city to see hundreds of caravans and tents was an awesome sight and one we will never see in New Zealand. O'Ringen city was set up on the outskirts of Ornskoldvik to cater for orienteers and was the base of all activities and the finish for Day 5.

It is no wonder the Swedes are so good at orienteering with the terrain consisting of glacial rock with low undergrowth, marshes and covered with trees. If you make an error it takes some time to relocate and every control is technically difficult.

Orienteering in Sweden is like rugby is in New Zealand and so their was extensive media coverage including TV.

The event structure was very good with five continuous days of competition, with a chasing start of Day 5 and the top 15 competitors wearing numbers (1-15). They also have an overtime rule (2½ hours) which meant that if you exceeded that time on any day your cumulative time didn't count.

My results were very poor but I enjoyed the orienteering immensely but had problems physically on Days 2 (jet lag) and 4 (mumps). I am keen to organise an informal HB 5-Day on the same lines as O'Ringen but on a scale of 15 rather than 15,000.

Results M35A grade (8km average)

	<u>Winner</u>	<u>My Time</u>	
Day 1	50.24	88.20	
2	53.35	99.11	
3	43.48	82.03	
4	*58.00	135.43	*approx
5	*58.00	140.34	

The period between O'Ringen and the VWC was spent suffering from the mumps but as I am not a great sightseer this was not much of a loss.

The VWC in Scotland comprised two qualifying days and then a final based on your qualifying performance. The top 80 qualified for the A final based on their combined time over the two qualifying days.

The Scottish terrain, although not as technically difficult as Sweden was very physical due to the heather and marshes. In my grade there were 210 competitors which were split into 3 groups of 70 with the top 27 in each group to qualify.

The Day 1 course was 10.1km long which I completed in 87.55 for 29th placing. I had difficulty distinguishing between the marshes and the open areas as they looked identical and I made a few errors because of this.

Day 2 was going to be all or nothing as I was on the edge of qualifying. My whole trip went down the tubes at control 7 as I made an unforced error of 6 minutes. The error was as a result of a mental relaxation on my part due to nailing the very difficult control beforehand and thinking that I was going to make it. My time for the 9km course was 98.42 which was 27th on the day but 30th on combined times and I failed to qualify by 4 minutes 33 seconds. Malcolm Ingham qualified comfortably in 17th place with a combined time of 165.32.

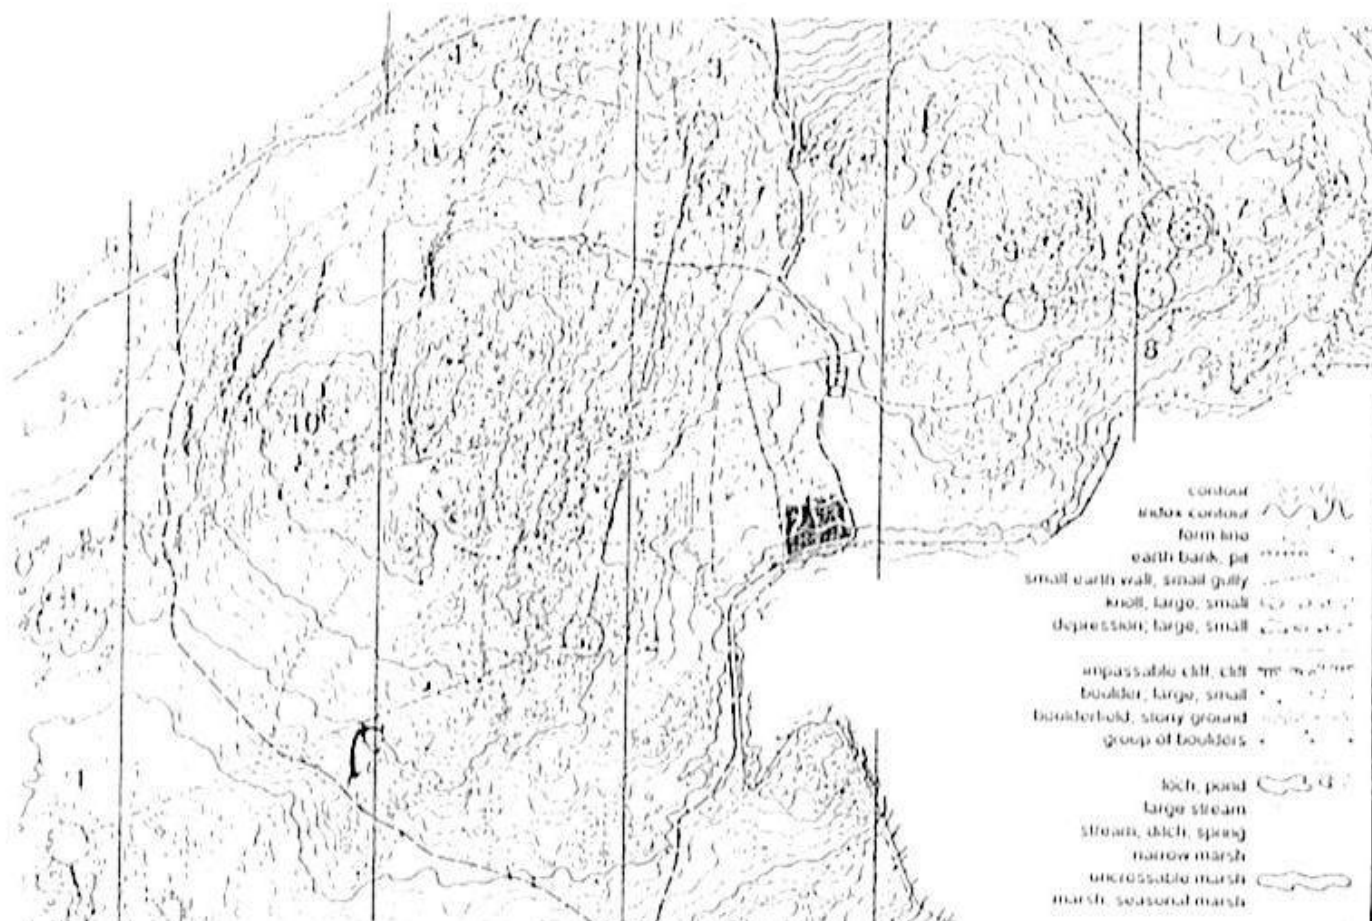

From that moment on you are a second class citizen (which is how it should be). The final was run over 12.3kms and took me 122.50 minutes to finish 22nd in the B final. Malcolm Ingham continued his good form for a 41st placing in the A final. The only excitement in the final was stepping over the body of a W75 on the way to my first control.

Next year you will be able to do 11 days of orienteering over 12 days which is very tempting.

O'Ringen Skane - Sweden	24/7 - 28/7
Scottish 6-Day, Strathspey, Scotland	30/7 - 5/8

and for which I have entry forms.

Peter Watson M35B

WHAT'S THE ODDS? by Amicus

The 26 lower case letters a to z stand for the 26 odd numbers from 3 to 53 (inclusive) in some order. The usual mathematical notation is used and no light starts with zero.

ACROSS

1.  $(b + d + q + r)(e + l + w)^2$
7.  $v^2 + z^2$
8.  $c^2$
10.  $f$
11.  $(d+r)(o+v)$
12.  $y^2$
14.  $j + z$
16.  $q^3 - gi$
18.  $ry(t + y^2)$
19.  $g^u + i + s + x$
20.  $ilox + q + s$
24.  $f^u$
27.  $dy + s^2$
28.  $qs z - (k + y)$
29.  $kv$
30.  $b^f - ci$
31.  $c$
32.  $g(c + v)$
34.  $ay^3$
36.  $h^3q$

DOWN

1.  $j - o$
2.  $eit$
3.  $rs w - u$
4.  $j^3 + jr$
5.  $d^3 + q^2 - (p + y)$
6.  $s - o$
7.  $f^3 - nt$
9.  $eh$
10.  $gn^3$
13.  $n^3x$
15. 28 across + 17 down
17.  $b^3 + m^3$
21.  $f q y$
22.  $j^2 p$
23.  $l^2 n$
24.  $ax^2$
25.  $(am)^2 + e$
26.  $iks$
33.  $g$
35.  $w$

## GOODBYE TO GWAVAS

My first encounter with Gwavas was at the Clubs badge event away back in March 1982. This was also my first run in a pine forest. Sharon has kept the results booklet from that event and it seems I ran course four which was 5.42 kms long set in the middle and southern sections of the map. I completed the course in 152mins 31secs. I was not last in fact two were slower, one being Dave Smith, and 4 DNF'd one a club member who will remain unnamed! Stewart Hyslop did 151.12 and Colin Tait (an ex-club member) 128.29. One lesson I learnt that day the hard way was to hang on tight to the map. Before crossing that famous or should I say infamous gorge I slipped my map into my shorts pocket and eventually relocated myself on the other side but was aghast to discover my map gone. By carefully retracing my steps i.e. scrambling climbing and <sup>everything</sup> ~~everything~~ else needed to cross that gorge I finally found it way up on the far bank. Upon finishing and reading the results board I couldn't believe how someone could do the course in the time the winner did it in. John Robinson from Auckland won that day in 69.53.

In those days there was not a lot of undergrowth in the forest and what there was wasn't too high (even for me) and thickest only around the edges. Unfortunately over the years as the trees have grown higher more light seems to have come through the canopy and the undergrowth has increased in density and height. I certainly did not enjoy the short 0 event. It wasn't fun or even sport crashing around looking for a control which I eventually found behind a pine tree in an area similar to what one would expect in the Amazon jungle! Give me Granules, McNeil or Mangerara any day. I enjoy the wide open spaces where one can take in the views when having a breather and I seem to take a lot of those these days.

Most of my experiences at Gwavas have been bad. It got very cold one winter afternoon and it ended up snowing and another time one of our daughters had a protest lodged against her by a club member who was on the same course. Her grounds were collusion between our daughter and son (who was on a different course). The protest was turned down. I believe this has <sup>been</sup> the only occasion when a protest has <sup>been</sup> lodged at a club event.

And of course there was the time when Sharon and I ran an OY and had the finish area beside a pile of rotting possum carcasses! They weren't there the week before and it was too late to relocate.

Unfortunately the day was warm, the rest you can imagine!  
 It didnt worry me as I have little sense of smell.  
 How different parts of Gwavas look now. Those re-entrants I  
 struggled up looking for pits or whateverare all now devoid of  
 trees and undergrowth, I hope they dont replant it. Put it back  
 into pasture please it would make a great farm map, we would  
 only have to change the colours!  
 One aspect I shall miss though is the drive up there and back.  
 We usually went up via Kereru and back down Salisbury Road.  
 Great views of the Ruahines on the way up and of the Heretaunga  
 Plains with the Havelock hills and Cape Kidnappers in the  
 distance on the way home. Goodbye Gwavas you certainly were a  
 trial.

Philip Mardon.

National Mutual  
 NEW ZEALAND  
 MASTERS GAMES™

Wanganui City hosts the NZ Masters Games every second year. When it is not Wanganui's turn, they are hosted by Dunedin. The 1995 NZ Masters Games will be held early in February 1995, with the orienteering events being run over Waitangi Weekend, Saturday 4 - Monday 6 February. There will be three events, at Lake Wairitoa (near Wanganui), Gordon Kear (a new map near Palmerston North) and Knottingly (Waiterere). Minimum age 35, total fees for the three days \$60.

For an entry form write to

NZ Masters Games  
 PO Box 500  
 WANGANUI

## Mills Block

19/6/94

Taupo Orienteering Club  
 Repara

Wow, what a fabulous turnout. The attraction of a new forest map is obviously a big drawcard. Paul H took me mountain biking in this patch of forest during the summer and the possibilities were obvious. The map was a bit of an experiment as I was unsure as to what quality I could achieve on the computer. There are definitely things I would do different next time!

I originally thought that I would have trouble getting long enough courses. As it turned out they were almost too long. The long grass in the young pines proved to be slow going and made running tough. However, everyone seemed to enjoy themselves, and it made all my work seem worthwhile.

A special thanks to Paul who helped me all weekend. I think I would have struggled to have everything ready without his help. - A motorbike certainly speeds up control placement a bit! Also thanks to Terry, Elaine, Morna, Sarah, Lawrie and Glenn who helped in various capacities. Finally thanks to George New for giving us access through the farm and to Tasman Forestry Ltd for the use of the forest and mapping equipment.

Rolf Boswell

Course 1 5.8 km.

CLUB EVENT - BLUFF HILL 26 JUNE 1994
---

The Bluff Hill event on Sunday 26 June 1994 was the first event that I have been asked by the club to organise. I found the exercise to be both challenging and rewarding.

When first confronted with running an event on Bluff Hill, I rubbed my hands and thought it would be a piece of cake. Living on the 'Hill' and having explored all its roads, lanes and steps, I thought it would be easy. Boy, was I ever in for a rude awakening!

There is certainly much more to preparing courses for an event than appears to be on the surface.

It took weeks of spare time plotting various courses, checking starting positions, car parking and if the courses had been used recently.

Whilst out with my son checking routes and obtaining clues, we eventually came to Ahuriri. By this time a comfort and refreshment stop were the order of the day. Lo and behold right in the middle of the cross roads was the comfort stop and on the corner, the refreshment stop.

I know on my courses I have walked, a comfort stop half way round could be most welcome. So I included one on 'B' and 'C' courses.

There were some very interesting responses to the questions I posed.

On the event day, the weather outlook was not promising with rain forecast. But the event started in fine weather and in spite of the sky clouding over and the rain starting to spit, the competitors all completed the event in dry conditions.

I must express my thanks to my family for helping with the course setting and to Ann Martin (my better half) for assisting in the caravan on the event day.

My special thanks goes to Tim Barnsley who, in spite of my obstinacy, made me alter the siting of the caravan on event day from the car park to the Hill side of Marine Parade for safety reasons.

Charles Martin

A Thought for Today

Reading through a D.O.C. Newsletter and came across this excerpt which I will pass on to you all for consideration.

'Orienteering can be a very individual sport. We don't have club rooms, so unless you want to hang around at an event waiting for people to finish, it is hard to socialise, especially if you are a new member and don't know anyone. In fact it is possible to come to an event, run your course, and leave without talking to anyone.

How could this be remedied? After big events we could use a function room at a pub as our club rooms and assemble there for prizegiving, etc shortly after the event finished. People could then stay on, have something to eat and drink, and discuss their run.'

Ed.

O M A T U A   C O A C H I N G / S O C I A L I S I N G W E E K E N D   1 9 9 4
--

The weather forecast sounded pretty scary for our annual Omatua coaching and socialising weekend.

The day started off cold and drizzly but didn't get any worse as the day progressed. After a total of 30 people were catered for, only 21 actually stayed - this included our Taupo visitors prevented from participating due to the threat of the Napier/Taupo road being closed.

We did have Rolf Boswell, originally of Taupo, participate in this OY. We welcome him to other HB events he may wish to partake. (Rolf was the course setter for the recent Mills Block event at Reporoa, in which a HB contingent partook).

Format for the weekend was as follows:

- Saturday - OY4 on the McNeil map
- Sat p.m - Pot Luck dinner, indoor games
- Sun a.m - Coaching, individually or in small groups.

The OY was set by Peter Hill and vetted by Brian Crawford - a course setters report appears elsewhere in this magazine.

Back at camp after the OY, our last afternoon activity was to replace the flag-pole rope. After some debate and rounding up of man-power, the task was successfully executed. Thanks for your help guys, we have been formally thanked by the Girl Guides Association for a job well done.

After plenty of hot showers, a quiet drink around the fire, good friendly conversation and analysis of the days event, etc., etc., Dave finally brought out the hot mulled wine to top it all off.

A good spread of grub was then presented and demolished, after which Chris and Catherine organised a few noisy and boisterous games. This was capped off with the Irish drinking game in the hall. Although no alcohol was involved in this game, one would have to wonder with people unable to walk a straight line! Supper and hot drinks were then served after which most retired to bed, leaving a few staying up to the early hours keeping the fire company.

A sharp frosty, albeit sunny, morning greeted us. The contingency plans for a cold wet day and exercises in the hall were not required.

Several suggestions for training were offered, and all opted for going over their previous days map, or the next grade up. I think most people got something out of it - and I thank

those members for sharing their skills and expertise to us more average members. Unfortunately, enthusiasm got the better of a couple of members, resulting in a deviation from the intended course. We shall endeavour to prevent this happening again - and ensure you get the coaching you deserve.

After lunch and all controls gathered, it was all hands on deck to clean-up Omatua ready for the inspection, say our goodbyes, and depart in time to get home to watch the All Blacks get beaten again!

I certainly enjoyed the comradeship of the weekend - although my OY performance left a lot to be desired and in obvious need of more coaching.

I was a little disappointed that we didn't get the numbers staying that were originally indicated. However, I hope those who did join in, got something out of the weekend.

The last thanks must go to the organisers, Catherine, Chris and Dave; and to all who assisted with meal preparations, dishes, etc, etc,.

Tim B

M C N E I L O Y 4  
2 J U L Y 1 9 9 4

My first start site near the end of Soldier Settlement road was O.K, until I walked around the west side to find all the manuka cut down - ended up sitting on the top of McNeil wondering where I could start, and who stuck this huge hill in the middle of our map.

Driving home I noticed the old sheep yards, what a perfect place to muster some orienteers. Once I found I could channel everyone down this interesting gully it all started to look good except for the rubbish tip. In this area, I found a wonderful control site which would eliminate all the M40's and make me Orienteer of the Year!

Alas, Brian said it had nothing to do with orienteering, but more like Mountain Dew right off the edge. However, I recovered from this disappointment and ended up learning something on the subtleties of course setting. The main one was McNeil because the mountain was there, and I wanted to put everyone over it rather than offer a choice. Did anyone go over the top? I know someone went over the tip.

The day itself was disappointing, no snow or sleat, just smiling, happy faces. However, it improved as more cursing, puffing faces emerged out of that last gully. Little did I know that revenge was just down the road.

Big thanks to Brian, the control pullers, the farmer and the Landrover.

Peter Hill

WHIRINAKI 24th. July '94

The most obvious thing about Whirinaki when field checking is the disappearance of all that blackberry! There is hardly any left-hurrah for goats and laterly cattle, perhaps each orienteering club should invest in some I can think of a number of maps that would benefit from the attentions of a flock of goats. I apologize to the early starters on the A course we did not adequately check the runnability of the young pines and had to re-route that part of the line. Whirinaki has been used for some years now so is well known to most club members so it is becoming quite difficult to set interesting courses and the size of the map makes some of the alternate types of course impractical. We were going to make the A course a "window" one but by the time we cut the windows out there was not very much map left! We settled for the A course as a line plus plotting the control points, B a line course, C a memory course and the D and E normal courses for the children and newer members. Many thanks to Tim for his help with several groups of new comers and to those who helped us retrieve all those controls!

Sharon and Philip Mardon.

G W A V A S   S H O R T   " O " 7th August 1994
--

Dave Fisher came down from his painting scaffold and agreed to help with this event.

We had vivid memories of the previous 'Short' event in this forest, so dug out the relevant Compass Points, and by calculation arrived at distances which were half the earlier event. Hindsight now tells us we were not drastic enough.

If you look carefully in broad daylight at the map of the area you ran in, you will discern a faint green wash over the side of the valley next to the Kereru Road. That's 'slow run'. It's also dark in there. It is so dark, there were possums wandering around while we were selecting control sights. They can't tell if it is day or night.

Murphy's law came into play. As Dave and I are not tied to the five day week, we decided to wait for a day with good weather to go out and visit the control sites. That's right.....it rained!

I would add that at times this seemed like a mini APOC. Twelve courses, and pre-marked maps!!

Thanks to Max who came for a ride and a walk, to ensure that the trees were still growing, and also for his 'lopping' skills in clearing the entrances and exits from the forest. To Alan, Ted, Derek, Ross, Wayne, Dave S, Tim and anyone I may have forgotten, thank-you for bringing in the controls.

Stewart H

CLUB EVENT - HAVELOCK NORTH 21 AUGUST 1994
---

The 21 August 1994 dawned frosty and the planned walk up Everest Avenue to plant a flag in the cul-de-sac was postponed till the car had warmed up. The Te Mata School control standards were placed with care by walking where the frost would not be disturbed thus revealing the tell tale tree. A now iced-up windscreen again thawed after a Km of air-flow created friction on the way to Anderson Park School, where a towel helped to dry out the shed wall allowing the sticker to attach. Further tripping to Lucknow School where 24 controls were set out around the buildings à la KiwiSport Score Event. These stickers also carried the control number - not much brain work required and real sprint times were possible. Returned to Eglinton Place and Everest Avenue where the two flags were planted with the property owners prior approval.

The caravan with Max McEwan's help was attached to car and towed the short distance to the Havelock North High School's car park. I set up Club signs, set out ice-cream container/coloured pen controls, weighed them with water for the Score Event/Final Map for the Car Course, while Max put out the 'D' Course normal flags.

The event was now ready - after a short dash home to get the kitchen clock and mike stand, synchronise car teams starts after their navigators and drivers had studied the 12 page instruction booklet for 10 minutes. The first instruction must have been understood as I didn't see any teams head the wrong way out the gate. However, at least two teams had trouble with the next two instruction 'tulips', which they figured put them up Durham Drive the 3rd street - whereas, I guess the rest found Everest Avenue the 2nd street more suited to the scheme of the following instructions. A mind-boggling learning curve, if not a bend, or a 'round the bend' experience, this navigating discipline!

Most car competitors were not fooled by the finish coming in the top (rear) gateway. The 'GO TO' style of instruction thrown in the third section had quite a few guessing. The instructions pointed out that the letter underlined was the point to look at on the map designated, and 'S. of' seemed to mean anything but South of, to some???

Car 'O' events of which I think the club has had a few in the past 10 years or so, have been held in Flaxmere/Frimley, south of Waipukurau and north of Waipukurau. Bjorn Simonsen, an experienced Danish Car 'O' exponent told us at the first event that it is often a night exercise in Denmark, where the countryside is very flat. Normally there is a briefing of all competitors at a designated time. He warned that husband and

wife teams were NOT recommended, because of the 'intense' nature of this form of our sport.

A street course seemed to be well received, as was the 'D' Course which used our usual flags, and the 'B' Course which was virtually the same as the 'D' map used on the Car/Run A Course.

Thank-yous to Dave Fisher, Brian Crawford and Max for control collection, and all those who took part.

Footnotes:

- 4 pens went missing after competitors had finished, Max collared a girl souveniring, which saved Dave further loss of his KiwiSport equipment.

- 1 Control standard and clipper (No.2 at Te Mata school) disappeared before Charles got to it - found next day by school staff.

- 1 sticker at each of Lucknow and Anderson Park Schools went after competitors visited.

- Caroline had an extensive search for a toilet for her youngsters, and required more petrol as a result.

- Max asked finishers to tell Dave S that the course needed to be harder!

- Green electricity boxes of any size on any of the legs of the car event were enumerated by putting a pin hole in the appropriate instruction box, but only those on the LEFT side of the road were eligible! Did some travel further or was there a few on the right side that crept in?

Max McEwan's input over the week before when the 'A' Course was firmed up was really appreciated. But for him, there would have been no 'HELP' map and you may have been lost forever. The car also felt the strain - Steam! In 'Lower Te Mata road' before we used more up-to-date maps. You would have had an historical 'Go to Ellison Road' if I had had my way.

Was this the very first Car'O' combined with a Run'O'? Certainly in HB, but I rather imagine that other clubs do not realise that Car'O's is an interesting variation. It was an interesting way of tying up lots of little maps in town.

Dave Smith

Mac & Ngaire Fisher	21.17	2nd

*PUKEORA HILL*

Course setting on Pukeora Hill has a lot of pluses when it comes to putting out / pulling controls but this is offset by the fact that it is difficult to set an A course in excess of 5km without covering the same ground twice. Hence the second map with the final four controls at control 17, strategically placed so spectators could encourage (harass?) competitors passing the finish area.

Even though I left the finish symbol off the description sheet for the first 17 controls (it was on the second sheet at 17) and wrote on the master map "A Course 1st map", "2nd map at 17" in large print, one competitor still ignored the map table at 17 and ran to the finish. I suppose in race mode, all we see are those little red circles and nothing else!

Apologies to Peter Hill for the controls being pulled early - a minor hiccup, which to Peter's credit, no fuss was made of.

Ross Morrison continues to improve and took out the B course against more senior / experienced orienteers - is there no stopping this kid!

Sharon, and one or two others, were not impressed with my controls sites on the steep face across the middle of the map but she was all smiles as the results of the C course were calculated. Closest finish of the day!

The E course was almost line-of-sight and James Watson scooted around in 17 minutes having used the taped F course for a warm up. Emma wasn't too far behind and apparently 4 year old Helen managed to keep brother & sister in sight and complete the course as well.

Thanks Eric, Brian, Dave, Wayne, Andrew, Caroline and Chris for pulling controls and the landowners for the use of the map.

B.P.
