# we are DYNAMITE!!

Well, at least we are **LOUD!**

The Hidden Valley at Mauriceville West resounded to the Hawkes Bay bedlam at work - cowbell, sheep rattle and a great mob of members, urging their clubmates to even greater efforts. Especially on the afternoon run on the national Short O Champs. It is a wonder that a few of the olds didn't have a heart attack from being verbally propelled up that last steep face!

The Nationals were a great success, both as an event and for the Hawkes Bay O Club. Our congratulations to our Wairarapa friends for a huge effort on their part in making it all possible. And our congratulations also to all of our own members who travelled to the event. There seemed to be a Morrison or three among the winners, also a few Watsons and a McDonald and a Hudson. Equally as important to the club though were the twenty or so other members who gave it their best shot but did not quite make it over the line in first place.

It was not for want of urging from their fellow members. The spirit of the club is reflected by the mob of members sitting on the hill at the finish, when almost everyone else has gone, just waiting for the last Hawkes Bay runner to struggle up the finish chute.

The annual Katoa Po night relays again provided a great night out for members. Richard "*the quiet one*" organised the troops and left members, no matter how far away they were, in no doubt as to where the finish was. From all reports it was another great Taupo event, fully up to the high standard that we have come to expect from our neighbours to the north. One of our senior members was seduced by the bright lights of Taupo city, in the middle of his course, but everyone else ran their little legs off and contributed to another memorable club "away" trip. Thank you Richard, as cheer-leader, for bringing home another Silva super-headlamp.

The NZ Orienteering Federation annual meeting and presentation of awards were held in conjunction with the Nationals. We were very happy to receive the Silva award for the best club magazine in 1999 - well done Terry. Hawkes Bay were also awarded the Silva prize for the greatest increase in affiliated membership. The award is a very generous one - 24 compasses. These will be put to good use for coaching and for new members and visitors. Thank you Silva.

See you out there.

*Alan*

Pres

## Committee News

### Mapping

Seafield Road The OY event recently held there have shown up the need for some remapping of the northern end of the map. In particular some of the young tree have now grown to the point where they are usable.

Te Awanga Pamela Morrison is making progress on the photogrammetry on new sections of this very large map.

Marewa, Napier Richard Lynn has suggested that this is an area worth investigating for mapping. The combination of the Green Belt, Marewa Park and the many walk ways linking streets in the area could make this quite an interesting urban map.

### HBOC Website

The club, after investigating the possibility of setting up its own website has decided to link with the official NZOF site. This has been actioned and our fixtures list and contact person (Pamela) can now be accessed through the site.

### Membership

The figures are very positive. Since the end of 1999 the number of family memberships has risen from 57 to 60 and the total membership has risen from 129 to 140 with more possibilities in the pipeline.

### Events

The annual Red Kiwi Challenge has been confirmed as taking place at our next OY event at Maraetotara on 21<sup>st</sup> May. They beat us when we travelled to the Manawatu last year so it is important we have a good turn out on our own territory to set up a win.

### NZOF AGM

Much of the last committee meeting was taken up with discussions about the various remits to be discussed at the AGM. We supported the appointment of a General Manager for the NZOF, the proposal to establish a Rogaine Committee to organise this growing area of map sports and had some concerns at the rate at which the NZOF was proposing to run down its reserves.

Back to school again with Stewart Hyslop, for a select night class group, keen to learn something about the mysteries of orienteering. We are sure that Stewart has again captured the interest of his students and we look forward to seeing them at future events.

*Thank you Stewart*

## NEW MEMBERS

We welcome the following new members to the club. We look forward to seeing you at future events.

- \* Barbara & John Phillips
- \* Neil Mora & Rachael Corry
- \* Todd & Alan Oates
- \* Linda Patterson
- \* Colin & Michael Jones

### **MAY 21 – MARAETOTARA – OY3** *HB V Red Kiwis Interclub Challenge*

*Come along, run your usual OY grade and score points for the club,  
as we attempt to regain the trophy lost on the Manawatu  
“battlefields” last year.*

*Be there on May 21 and make your run COUNT!!*

## CONCENTRATION

Many people say that one of their weaknesses in orienteering is the inability to maintain the required level of concentration for their whole race.

At the recent D'Squad camp, Rebecca Smith presented this exercise, which she has used to improve her concentration. The aim is to cross out the numbers in the grid, in order (ie. 1,2,3,4...100), in the fastest possible time. Keep a record of your time and aim to improve it in future sessions. Create a couple more grids and use a different one for each session and also introduce distractions to your sessions (eg radio, TV). This isn't as easy as it sounds!!

15	80	98	34	88	92	62	42	79	5

# EYE IN THE SKY

BY THE MAGPIE

- Rob and Derek were putting out controls at Seafield Road on the Saturday evening before the OY, when Rob had that sinking feeling. He'd forgotten to pick up the maps from Spitting Image! A quick call to Faye, asking her to track down Opal, the shop owner, somewhere in Hastings. Finally contacting her, just as she was about to go out to dinner, the maps were recovered by dutiful Faye, saving Rob much embarrassment.
- Terry had a bit of brain fade when finishing the 1<sup>st</sup> leg of the relay at the Nationals. Once crossing the finish line, he decided to stop, smell the daisies, and then wander along the exit chute to finally tag a patient Jason.
- The lead of 23 minutes was too much for Geoff at the night relays. He decided to give the other teams a chance by wandering off into the night, looking for newer pastures not shown on the map. Unfortunately, once he returned to do the orienteering that everyone else was doing, his opponents had long bolted.
- Tom thought that it would be a quiet day at Pukeora Hill. A lot were down South at the SI Champs, and the weather was not flash. 51 people proved him wrong!
- Derek turned up to see who was interested in orienteering at Napier BHS. He walked into the classroom and 33 boys were there to greet him.
- After the Katoa Po, Derek keeps getting an e-mail "C'mon Hawkes Bay"!
- Good to see Tim back from the land of 'Uncle Sam' in one piece. Don't know how much training he did while he was away, but seems to be going quite well at the moment.
- Seafield Road had a white course with a difference. As a control was being clipped, just above the road, he turned to see one of the hill-climbers fail to take the bend and sail straight through the fence.
- Richard's car had the Hawkes Bay flag hoisted out of it's back window at the Nationals and with Tim, David C. and Todd riding shotgun, they looked like a delegation from one of those banana republic states.
- Mark finally cracked it at Smedley. A victory on HB soil at long last. Next on the agenda, an OY victory.
- With Phil Costley's appearance at Mangarara, it would be interesting to see his routes taken. He was out for over an hour, and at the pace he runs, the distance he probably covered would be mind-boggling.
- Jason and David Costigan went head to head at the Nationals in M16. After 95 minutes of hard work, they ended up being separated by 1 second!

## MACPAC KAWEKA CHALLENGE

For the past eleven years the club has organised the Macpac Kaweka Challenge, in conjunction with the Heretaunga Tramping Club. This mountain event, held in the Kaweka Range west of Hastings, has been hugely successful and is enjoyed by more than 300 competitors each year.

The Kaweka Challenge is a major fundraiser for the club and allows us to meet the cost of our ongoing mapping programme, yet still keep our subscriptions and map fees down to almost nothing.

Each of the clubs provides members for the Kaweka Challenge committee, which is responsible for managing the event. The committee meets once a month from about June to March, and more often around the time of the event in February. We need a couple of new members from the club for the 2001 event committee.

Can you help out? We are particularly looking for someone who has word-processing skills, who could look after the entry form, programme and results booklets. Also, someone who could take over the role of treasurer. Or just someone who is prepared to do whatever job needs to be done!

You would enjoy the involvement in this event and at the same time you would be putting something back into our sport.

Please give me a call at 877 7223. Thanks.

Alan Berry

## NZ DEVELOPMENT SQUAD TRAINING CAMP

I was invited to attend the New Zealand Development Squad training camp held in Hawkes Bay. Having been in the Yorkshire & Humberside regional squad in England I was looking forward to getting back into Orienteering training again.

We stayed for the five nights in the Tuki Tuki Christian Youth camp and were well fed by Pamela Morrison who catered for us all. Our coaches were generally young M/W21's although Michael Wood and Darren Ashmore were there to add experience to the coaching team.

The major difference I noticed between the GB and NZ training schemes was that the NZ method focuses more on after event analysis than perhaps shadowing and talking about orienteering whilst on the map. I especially enjoyed the camp because I got to know heaps of Kiwi Orienteers who are my age and I got a chance to adapt my orienteering to New Zealand terrain in a relaxed but productive way.

I'd like to thank the Hawkes Bay club for subsidising the camp for club members, and know that without attending I wouldn't have been able to compete to as high a standard at the Nationals.

Todd Oates

## Junior News

Since the last magazine, what a period for all our superb young orienteers. Magnificent at the Night Relays, NISS Champs and the National Champs. What performances! For all those who couldn't partake in those events, don't worry, you can measure yourself against the best in the land right here in Hawkes Bay.

The night relay "A" team had Scott McDonald, Amber Morrison, Todd Oates and Ross Morrison as our first 4 legs, and they managed to take us to a 17 minute lead. Though that lead was eventually 'blown', it still augers well for the future when some of those 'oldies' are pensioned off! Perhaps Mark Hudson can be the old man of the team.

The NISS Champs were another success. All the boys relays were won by Hawkes Bay schools. Throw in a second by Hastings GHS and it all was a huge success. Winning individuals were Ross and Amber, with Asle Vaskinn and Jason Russell both runners-up and James Watson and Jenny Russell 3<sup>rd</sup>, in the Championship grades. The great thing was, we had over 30 competing.

The Nationals added cream on the cake, with HB winning 4 out of the 8 classic junior grades. Once again it was Ross and Amber to the fore, and also the Watson sisters, Emma and Helen. A feature was the trifecta in W12, Helen, Cara McDonald and Kate Morrison. Scott McDonald gained a 3<sup>rd</sup>. In the Short courses, Cara reversed the tables on Helen, her being the only Junior winner. Also, 2<sup>nd</sup>s to Ross, Amber and Scott, and 3<sup>rd</sup>s to Asle, Jenny, Jason, Emma, and James. We were able to run at least a place in every junior grade in one or other of these 2 events. We were also prominent in 4<sup>th</sup> placegetters, with Todd Oates (twice), Sophie Fargher and Duncan Morrison all achieving these. Not only that, our juniors contributed right throughout our relay teams. At one stage, there was a steady stream of these youngsters sprinting up the finish chute. Oliver Watson must have had his best run ever. Both he and Duncan looked like human versions of 'Road-runner'!

It is good to see our Secondary School students putting in an effort to try and put together teams for inter-school competition. Our club certainly benefits from that input, and it adds to your enjoyment seeing your friends do well. Asle went with Napier BHS 3<sup>rd</sup> form to a camp in the Kaweka Ranges. They did orienteering, and as a consequence, a lot of them formed the core of the 33 boys Derek has on his list for the Napier BHS team.

Asle, Todd, Jenny and Ross took part in the NZ Development Squad camp at Moore Road. By their performances at the Nationals, obviously they got a lot out of it. Ross is the only one in the squad but I'm sure he is but the start of an avalanche of our juniors who will be involved in the future. These camps usually put together a coaching team of New Zealand's very best orienteers, and it gives them the chance to evaluate the abilities of our very best <M/W20.

GM

# NZOF News.....May 2000

By Bruce Collins

- With the Nationals just over this is a good time to remind you that NZOF will pay for the engraving of any trophies won at the Nationals or National SS Champs. Just send a receipt to the Treasurer and you will be refunded. This might help alleviate the financial engraving load for some families, especially the Morrison's of Hawkes Bay who did so well. Well done.
- With the recent AGM we have a new NZOF President in Rob Crawford (WACO) and a new Treasurer in Sheryl Collins (DOC). Bruce Collins has moved sideways from Treasurer to Secretary. There has been a changing of the guard in the Council regional representatives with Rob Newbrook (Egmont) becoming the CDOA rep and Stuart Payne (PAPO) becoming the South Island Rep. Dave Glover has recently stood down as the WOA rep and a replacement process is under way. Dave Middleton (NWOC) remains AOA rep.
- The AGM approved the position of paid (albeit poorly!) General Manager to replace the Secretary and Treasurer positions as from the next financial year. Also the AGM approved a position of paid Development Officer.
- All Council and Executive meeting minutes will shortly be available to view on the NZOF web site [www.nzorienteering.com](http://www.nzorienteering.com)
- The next Council meeting will be held in Wellington on 20/21 May, which is probably after you read this. Clubs will have been distributed with an agenda beforehand.
- At the last Council meeting it was resolved that those persons that still owe money to NZOF for debts incurred, through purchase of Silva products, be advised that they are not eligible to attend any regional or National Championships (or be eligible to represent NZ) until the debt is repaid.
- The Council meeting also agreed to retain the policy that "University Clubs can affiliate full time students by paying the junior affiliation fee. Non full time students must pay the affiliation fee determined by age". This was thought to be an incentive for active University Clubs.
- The Council confirmed that the price of the national magazine NZ Orienteering will increase by \$1 per issue as from January 2001
- Situations vacant
  - Coach of the National Squad
  - Publicity Officer
  - Primary Schools coordinator

Job descriptions will be available shortly. All jobs are unpaid and done for the pure love of the sport and the associated glory of the position! (expenses are covered)

- The new position of Development Officer will be advertised at a later date once proposed duties and tasks are finalised.
- The Executive and Council regional representatives welcome any input into the running and future progress of orienteering in NZ. Just speak to one of us.

# ROLL OF HONOUR

## SOUTH ISLAND CHAMPS WARMUP- 25 MARCH, 2000 (BRONTE)

CLASS	PLACE	
M20A	1	Ross Morrison
M40A	2	Derek Morrison
W35A	3	Pamela Morrison
W18A	2	Jenny Russell
W16A	1	Amber Morrison
W21C	1	Debbie Rose
M12A	3	Duncan Morrison
W12A	3	Kate Morrison

## SOUTH ISLAND CHAMPS - 26 MARCH, 2000 (TAKAKA)

CLASS	PLACE	
M20A	3	Asle Vaskinn
M40A	1	Peter Watson
M50A	1	Derek Morrison
W18A	3	Jenny Russell
W16A	1	Amber Morrison
W21C	1	Debbie Rose
W14A	3	Helen Watson
M12A	2	Duncan Morrison
W12A	2	Kate Morrison

## NEW ZEALAND CHAMPS CLASSIC - 22 APRIL, 2000 (HALCIONE)

CLASS	PLACE	
M18A	1	Ross Morrison
M40A	1	Peter Watson
M45A	2	Geoff Morrison
M50A	1	Derek Morrison
M40AS	2	Tom Fargher
W40AS	2	Diane Lucas
M70A	2	Brian Crawford
W16A	1	Amber Morrison
W21B	3	Faye McDonald
W14A	1	Emma Watson
M12A	3	Scott McDonald
W12A	1	Helen Watson
W12A	2	Cara McDonald
W12A	3	Kate Morrison

NEW ZEALAND CHAMPS SHORT-O – 23 APRIL, 2000 (HALCIONE)

CLASS	PLACE	
M18A	2	Ross Morrison
M18A	3	Asle Vaskinn
M40A	1	Peter Watson
M45A	2	Geoff Morrison
M50A	1	Derek Morrison
M40AS	3	Tom Fargher
W18A	3	Jenny Russell
M65A	2	Alan Berry
W40AS	1	Caroline Watson
W40AS	3	Diane Lucas
M70A	3	Brian Crawford
M16A	3	Jason Russell
W16A	2	Amber Morrison
W16A	3	Emma Watson
W21B	2	Faye McDonald
M14A	3	James Watson
M12A	2	Scott McDonald
W12A	1	Cara McDonald
W12A	2	Helen Watson

NZ CHAMPS RELAYS – 24 APRIL, 2000 (HALCIONE)

MIXED LONG	1	Mark Hudson, Ross Morrison, Derek Morrison
MIXED LONG	3	Geoff Morrison, David Costigan, Todd Oates
MIXED SHORT	2	Peter Watson, Emma Watson, James Watson

## SOUTH ISLAND CHAMPIONSHIPS

If you've seen that film, "planes Trains and Automobiles" well that kind of sums up my journey to and from the SI Champs. Train to Palmy, car to Wellington, Plane to Nelson, around Nelson by car (Thanks heaps to Michael Wood), then Plane back to Wellington, car to Palmy, and then back to Hastings by car with Dad after his blistering run at Pukeora Hill. Oh yeah I did quite a bit of running around on foot while in Nelson.

It was really neat to go back to an area where I used to live and go Orienteering. The first day was on a new Map, Bronte, I really enjoyed this course and had a pretty good run, but was still unable to put in a better time than Amy, that remains a challenge. Some of the other Hawkes Bay dynamites put in some good performances as well. About 15 people from the Club made the trip down which was a great effort for such a long way. Dad was pretty cheesed he couldn't come but he had to pick them Apples.

Day 2, the South Island Champs, was also on a new map, on the side of Takaka hill. This was a unique Map with interesting Rock features all over it. This extensive rock detail was mapped in several shades of random dots, which was sometimes a little difficult to see through. Had a reasonable run, not as good as day one, but blew the last control by overrunning it. But at least I managed to come in ahead of Amy this time, a rare feat. Still I had a great weekend's Orienteering and got to catch up with some old mates as well.

Thanks to TOPS for putting on such a great weekend, I, and the other Hawkes Bay members had a really good time. The only thing missing was Richard Lynn and his cheering, man it's quiet when he's not around.

Jenny Russell

## The New Zealand National Orienteering Championships 2000.

After a good run at the Katoa Po this year and a dismal performance the following day at the Central Districts OY1 at 99 Hills, I'm not really sure what possessed me to enter the National Orienteering Championships. It must have been some misguided notion of nobility, or maybe it was simply the new O top in club colours that was just begging to be worn out of district.

Day One: rolling to steep gully spur pine forest ranging from five to twenty five years old and farmland with some areas of native bush. That doesn't sound too bad - quite like Hawke's Bay I thought.

Day Two: large areas of regenerating native bush and many water features. Includes an intricate slumped area. Excellent I thought to myself, just the ticket for an ex Waikato mudlark. All was well when I sent off my entry for Course Two. Seventy percent of Course One, I thought that should be well within my capabilities. I was looking forward to receiving the programme and the event.

Then the programme arrived! My legs went like a recently set jelly when I saw that Course Two on Day One was 7800 metres with 325 metres of climb. They turned to custard of the most yellow kind when I turned the page. The Short O (and I use the term in its loosest form) was 3000 metres with 100 metres of climb in both the morning and the afternoon. Thank goodness I hadn't entered the relays. I knew I had to get in some serious training. Running red medium courses at the club events wasn't going to get me fit enough. The trouble was that I had just ten more days to go and I had hardly been for a run since Katoa Po.

The first training run was difficult, barely 5 km and I was struggling. The following day I went for another and easily ran 9 km. Maybe I did have a chance of running reasonably well at the champs. OY2 was on the Sunday and I was looking forward to a good run on the red medium course. The only problem was I also had to get nets off the vineyard on Sunday so the harvester could pick on Monday morning. The workers didn't turn up on time so I arranged for a few extra and a later start. After such a hectic morning it was difficult to concentrate on drawing the route with the car club howling up the road every minute or so. Maybe the pressure of work and noise was a good thing because I had a pretty clean run at Seafield Road. So I went into the week feeling confident of not disgracing myself at Easter.

As we all know pride cometh before a fall and I was to learn this in spades over the coming week. I had a plan of light training runs on Monday and Thursday with a swim on Tuesday and Wednesday. The training run on Monday went well until I turned out the gate and ran up the road. I was so busy planting vineyards in other people's paddocks that I forgot to look where I was running and stepped on the edge of the tarseal, rolling the ankle I had rolled at the Katoa Po. Country roads can be very unforgiving. Completing the run feeling more than a little foolish and a tad cross, I rested the ankle and changed the preparation to one swim during the week only. Friday: EAT PASTA.

I drove to Mauriceville West (Where?) to the east of Mount Bruce on the morning of the Classic event. It had poured with rain the day before so everything was a little soggy. I collected my clipcards and had a look at the unusual depression/mound feature that was unique to the map and went to get changed feeling quietly nervous about whether I could get around the course without going astray. As I sat on the armchair on the back of the ute (surreal but true) filling in my clipcard (the course description was as long as my arm), I remembered the description of the map, particularly the bit about five year old pine forest. I hate young pine forest. More often than not it shows up the weaknesses in my technique and there is nothing like it to induce blind panic if you temporarily misplace your location. On the way to the start I tried to focus on how I would run the course but my mind was particularly uncooperative.

Uphill start, a nervous three minutes and then it was my turn to go. Very conscious of Bryan Teahan, the '99 champ only six minutes behind I walked to the start triangle sorting out the first leg

and then ran up the ridge to the first control, an earth bank in some trees. Overshot by 50 metres but found it easily. Second control, around the spur, past another and into a reentrant. 100 metres down the wrong spur was not a good start to the leg and things just went from bad to worse. I was already six minutes down by control three as Bryan went sizzling past. I managed to catch up to him at control four and beat him to it but things just weren't going smoothly. The running was a struggle and my brain wasn't processing information at all well. Very slow from five to six and already forty minutes had gone by. Seven was a saddle at the bottom of a spur. Raced the other person who had left six with me and just beat him to it. Then off on the longest leg at 1.5 km to control eight, back up a neighbouring spur to the top of the ridge and then follow the ridge to the end, down to a wide valley, over the saddle, up a track and into a reentrant on the other side of the ridge. Sounds easy doesn't it. It was for every one else. I still don't know why I went down when I should have gone up, all I know is that the climb out was steep, and long.

The next few controls went reasonably well, even my legs seemed to be starting to rotate at a reasonable speed and my feet were coming off the ground with some strength. Jamie Stewart went past with grace of a gazelle, the speed of a cheetah and the strength of an elephant, I didn't even bother trying to stay with him. A quick drink of water and off to eleven. A steep uphill climb and there's the guy that left me behind at seven. Power on over the top of the hill, just beaten into twelve and then we diverge again as he opts for the direct route through the young pines and I go around. I beat him into thirteen which I find easily and fourteen is a pit that proves a bit elusive. The pressure is on to keep ahead and out of sight. Bent double I sneak off to fifteen and totally stuff it up. The problem with young pines is once you go the wrong way it is very hard to relocate. I start to get concerned when I hit some mature pines that are 100 metres past my control. Sweat is dripping off the brim of my hat on to the map right on the spot I am looking at. DRIP, DRIP, DRIP, DRIP. My concentration is shot to pieces. Blind panic sets in when I relocate on a parallel feature and go in the opposite direction. Some twenty(!) minutes later I find fifteen in a reentrant I've only been past three times.

The plastic maps we are using are certainly waterproof but when I get to the control circle of sixteen I find that all the detail has disappeared from the line where I have folded the map. It is almost the last straw for a brain that has been out on the course far too long and legs that are rapidly turning rubbery. I stagger my way up the feature nearest to my destination and spot the control nestled in a depression. I punch the clipcard and attempt a sprint up the hill. I choose safe but slow routes into the next three controls which are tucked away in the young pines again. At last there are just two controls to go. I find the second to last control exactly where the map says it should be and set off for the final control as fast as I can run. Over the barb wire fence, down to the rock, clip the card and sprint down the hill to the finish. I look at my watch and see that it has taken me 160 minutes. All I am interested in is a drink, some food and some dry clothes.

It is some consolation when results go up that I find I am not alone in my torment and other poor souls have been out on the course for almost as long as myself. Best news of all, Terry has beaten me by only three minutes. My legs are weary and tomorrow seems impossible. Sitting on the hill cheering other club members as they appear at the last control I realise how much finishing the course matters to me.

Woken the next morning by Sean Morrison singing a song about sharks, I get out of bed feeling pretty good considering the rigours of the previous day. I asked Geoff and Pamela about Short O's as I have never run one before. They stress the importance of accurate navigation and how speed comes as a flow on effect.

Day two is much cooler and is run on a map adjacent to the previous day. It is cheering to see Cara, Helen and Sophie accurately navigate their way through a difficult white course which is on a hill face beside the car park. 3km and 100 metres. Terry starts 8 minutes ahead of me and I dream unrealisable dreams of beating him to the finish. Picking up my map I see that the course is all in farmland and I breathe a sigh of relief. No pine forest! I'm much more relaxed at the start and take

the easy route to the first control. My ankles are aching constantly and the first contours up are really hard work. I navigate much more carefully and my speed is better too. I still can't believe it when Bryan Teahan catches me at 3, but this time I stay with him and even manage to out climb him on the hills. I am starting to limp on my weak ankle as it finds contouring hard work but I push on trying to keep the navigation accurate and my speed up. Grunting my way up a hill I have to cross another barb wire fence and manage to hook my shorts on it in about three places. I'm standing on tiptoes as I try to extricate myself feeling very vulnerable to the wind and rubbery legs. My only real mistake comes at nine when I go too far to the south and miss the control by 100 metres. I finish feeling much better and about half way down the field. I have a two minute advantage over Terry.

A quick lunch of a filled roll, chips (Sean Morrison really likes these) and plenty to drink is a priority. There isn't much time before I have to front up for the afternoon course. It feels good to have the shoes off and quick lie down on the back of the ute in the weak sunshine. Judging by the crowd in the results tent the first times are up so I wander over. Good news for the club with Ross, Asle and Todd holding 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> in M18A with Peter and Derek holding first in their grades and a strong showing by Hawke's Bay in M40AS, W16A, W21B and W12.

The day warms up as the 1pm start looms and I set off up the hill to the start. Jim Barr was at his sartorial best in handkerchief hat and bow tie as he gave us our instructions then it was off over the top of the hill to the first control. I spent much of the afternoon course bent double navigating my way through low manuka scrub in search of the smallest knolls I have ever seen marked on a map. Beating Dave Persson into the next few controls was gratifying, he covered the ground faster but lacked his usual accuracy. Then came the intricate slumped area and I sucked myself in to following another course two runner to the reentrant. Some people never learn. Sloshing my way out to the farmland and the last three controls my legs finally decided to cry enough and began to tie up. A quick look at the map, past the group of trees and down a little into the reentrant. Only it was down a little and straight into a tree. I really should look where I am going. Two controls to go, one a narrow marsh. Looking ahead I can see the marshy area on the map but none of it looks too bad so I straight line it through the swamp. I can hear the people at the start yelling 'come on Hawke's Bay' as they see the green top. I forget to watch my feet and run into a bog over my knees. I pull myself out with a great deal of effort cursing that it would be in sight of the finish. I look up to see the control down to my right and promptly trip over a reed mound burying my map in the mud. At least they are plastic I think as I dig it out. Clip the control and then run down to the stream and over to the final earth bank. I coax myself up the steep little hill to the finish. At least this time I have finished early enough for them to take my map.

Sitting with Val at the top of the finish hill we get a great view of all the finishers. We cheer on the runners as they come within sight and exhort them to use their legs as they approach the last hill. It is nearly time to leave, but I can't help wondering, where is Terry?

## WOA OY4 KNOTTINGLY 14 MAY

### Red Kiwi's event - WOA OY4

Knottingly, Santoft Forest, NW of Bulls on Sunday 14 May. Starts:  
10am - 2pm 8 courses by Jason Markham Follow signs from Bulls SH1 / SH3  
intersection - Parewanui Rd, Raumai Rd, Santoft Rd, Knottingly Rd.

Lovely sheltered forest whatever the weather. This is a chance to orienteer where WMOC competitors did, and also an area where no-one has been able to orienteer for 3 years because of the embargo for WMOC.

## Who is New Zealand's Top Orienteering Club?

Results from the recent National Championships all point to one answer – **Hawkes Bay!**

### (A) Individual Titles

<b>Club</b>	<b>Titles</b>
Hawkes Bay	10
Wellington	10
Auckland	9
North West	7
Counties Manukau	6
Red Kiwis	6

### (B) Number of Placings: Individual Events

<b>Club</b>	<b>Placings</b>
Hawkes Bay	33
Wellington	30
Red Kiwis	25
Counties Manukau	22
Auckland	16
North West	15

### (C) Relays: Top Five Teams

Long Event. Hawkes Bay **1<sup>st</sup>, 3<sup>rd</sup>** (out of 41 teams)

Short Event. Hawkes Bay **2<sup>nd</sup>, 4<sup>th</sup>, 5<sup>th</sup>**. (out of 23 teams)

## 20th KATO A PO NIGHT RELAYS

Well the annual migration to Taupo during the full moon to do it all night was made again this year by about 25 - 30 Club stalwarts. The Map was Tauhura right next to the main highway into Taupo and the future site for State highway 1, so we were told. A great weekend was had by all, and we even enjoyed the Orienteering as well. Well most of us did.

HBOC had 3 teams in the five person teams event and two in the 7 person teams event, a pretty good showing. Although we didn't manage to take home any of the major placings we certainly made our presence felt. Our best place was a fourth in the five person race with the team comprising of Sophie Fargher, Liam Hale, Jenny Russell, Todd Oates & Tom Fargher. Well we did have a winning team for a while there in the seven person event, the team comprising of Scott McDonald David Costigan, Todd Oates, Ross Morrison, Derek Morrison, Geoff Morrison & Mark Hudson were looking like a sure thing there for a while.

After Ross's run they had a fifteen minute lead on the field, then Derek went out and as is his usual gave it his all. In fact he was so quick that Geoff was still down at base headquarters when he came back in!! One of the more memorable moments of the weekend was Geoff chasing his brother down the finish shoot stripping off his extra layers of clothing and tossing them to all and sundry. (You may have missed your calling Geoff) But they still had that fifteen minute buffer on the field all Geoff had to do was maintain it and they were in with a chance with Mark Hudson to follow Geoff, little did Mark know the wait was going to be quite so long. Who knows what possessed Geoff whether it was the bright city lights of Taupo or the luring smell of the thermal pools but when you read your map upside-down you tend to run in the wrong direction. Oh well there's always next year.

One of the outstanding features of the weekend was how strong the club is in the juniors and this certainly bodes well for the future, well done all you juniors give yourselves a pat on the back. The other outstanding feature was the club spirit and the great support the rest of the members gave to runners out in the field. You could be on your own in the dark in the middle of the countryside when out of the darkness booms **C'MON HAWKES BAY!!!** It was certainly a great part of the weekend and special thanks must go to "the quiet One" Richard Lynn and his team of helpers setting up our military theme and compound, barrier arm and dog tags included. Also our propaganda leaflets (copy on next page) created a fair bit interest, but alas no new recruits. A great job people, well done.

Of course out of all that we managed to take home the prize of a Silva headlamp for the club for the most supportive team. A pat on the back for everyone.

A big thank-you to the Taupo Club for another great event, well organised and a great deal of fun. The courses were great and the weather you turned on, well we thought we were still in Hawkes - Bay. Look forward to seeing you next year.

Yrret Llessur

# GREETINGS

FROM OUR BELOVED  
PRESIDENTO,  
ALANO BERRITO

IT IS NICE TO SEE OUR FELLOW COMPETITORS ALL HERE AT THIS GREAT EVENT, FOR ANOTHER YEARS COMPETITION AND TO HELP MAKE UP THE PLACINGS - WHICH FOR YOU, WILL ALL BE IN DOUBLE FIGURES.

WHY ARE YOU COMPETING AGAINST US? WE LIKE YOU, YOU ARE NOT OUR ENEMY, WHY NOT JOIN THE UNSTOPPABLE WAVE OF OUR MARCH TO THE GOLDEN CONTROL.

SEE THE POWER, FEEL THE PASSION, ADMIRE THE SUPERBLY HONED ATHLETES, HEAR THEM ROAR IN EXALTATION, AS THEY CROSS THE FINISH LINE FIRST, WITHOUT EVEN THE SHADOW OF FELLOW COMPETITORS FOLLOWING. TRULY, A FINER GROUP OF ORIENTEERS IS YET TO BE ASSEMBLED.

WHEN YOU SEE THE DUST OUT THERE, IT WILL BE FROM THE FEET OF OUR RUNNERS, POWERING TO, YET AGAIN, ANOTHER GLORIOUS VICTORY.

YOU COULD BE HAPPY WITH YOUR LOT, OR YOU COULD MAKE THE DECISION TO JOIN US. IF YOU DON'T, THEN BEWARE THE EVIL MAGPIES AS THEY SWOOP UPON YOU.

REMEMBER THE ONLY COLOURS ARE GREEN,  
BLACK & WHITE.

Dear Mr President and Mr Club Captain,

Once again I wish to thank you and your committee, especially the "VOCAL" Richard Lynn for a most enjoyable weekend at the 20th Night Relays at Toupo. It doesn't matter that we were winning then we lost, what does matter is the spirit the Club had --- and there was plenty of that!!!

As an inactive Orienteer, mother and "companion" of 4 + 1 other active orienteers I thoroughly enjoyed my weekend and only wished it hadn't gone so fast!!

As a mother who has to clean and polish many trophies of one sort or another ( not skiting ) I'd much rather have a "headlamp" than another trophy!

Yours sincerely

Val Morrison  
( "Orienteering Mother of the decade" )

**ORIENTEERING**

HAWKES-BAY TODAY 10-04-2000

## NBHS pupil claims senior title

Napier Boys' High School's Ross Morrison was a convincing winner of the senior boys' title at the North Island Secondary Schools orienteering championships in Bulls at the weekend.

Morrison retained his title by six minutes. Norwegian exchange student and NBHS teammate Asle Vaskinn was second and Tamatea High School's Todd Oates fourth.

Despite still being a junior Morrison's sister Amber (representing Napier Girls' High School) was almost as dominant in the intermediate girls' section which she won by three minutes.

Other Hawke's Bay competitors to shine in the individual events were St John's College's Jason Russell who was second in the Intermediate Boys' section, Central Hawke's

Bay College's James Watson who was third in the junior boys and the Hastings Girls' High School pair of Jenny Russell and Mikaela Harker who were third and fourth respectively in the senior girls' championship.

The NBHS pair of Liam Hale and Michael Podjursky were first and second respectively in the intermediate boys novice grade and schoolmate Freddie Kennedy was third in the junior boys novice grade.

Hawke's Bay schools completed a grand slam of the boys relays yesterday. Hot favourites NBHS (Morrison, Vaskinn and Ramon Steenson) won the senior boys title by eight minutes over Palmerston North Boys' High School.

St John's College (Phillip Hurring, Josh

Wynands and Jason Russell) won the intermediate boys' section which saw Newlands College and Lindisfarne College finish second and third, respectively.

A Lindisfarne College team of Keith Nicoll, Jordan Williams and Jonny Mole won the junior boys title after coming home fourth but the first three placegetters including NBHS were disqualified.

Hastings Girls High School were second to Newlands College in the senior girls' section.

Napier Boys' High School and Lindisfarne College were second and third respectively in the battle for the top boys' school trophy won by Newlands College.

## MANGARARA

Well that was a far better effort on my part than I did at Anderson Park. The sun was sullen, the wind whispered, Richard was ruthless and the courses complex. Well Derek gave me my wish and is getting someone else to set the Slump this year, so I had a very unfamiliar map to work with.

Now, where to start? I was helped by having some enlargements left over from a couple of years ago and a visit to check things out confirmed the registration and parking area. I liked the set up because even the most eagle eyed of you could not spot any more than two controls as you drove in.

I went out on the Friday and did all the controls on the east side of the road plus a couple in the south end of the forest, they certainly have good cliffs and an abundance of them. Saturday Ken came out with me to put the rest of the controls out and to check the work from the previous day. We got ourselves down into the Southwest corner of the map along the stream, it was just beautiful country in there with the trees and the bush. (*Tell the truth, if Ken hadn't been there you were lost-ed*)

Driving in Sunday morning, as we drove down the hill into Patangata we could see the heavy mist cloud over the map and as we drove in on the farm road we were greeted with an eerie sight. A dozen or more strong shafts of bright light close to the ground. This was caused by the low sun shining through the gaps in the line of trees which grew together at the top and as you got higher the mist got thicker. It reminded me of a visiting Alien mother ship, huge in size with all these brilliant white lights shining down from the underbelly. It was excellent and I don't think I will ever see the likes of that again. (*Just what did you and Ken find in that bush?-ed*)

Well back to the orienteering. Well I saw you at the start but I felt a little detached from all the activity and excitement at the finish area. A good battle in the Red Long, the first four within two minutes of each other. And then Terry, ever the Gentleman, allowing Pam the honours, with a good gap back to the rest of the field. Bruce and Eric showed up, both saying "because it was just down the road" obviously the break hasn't slowed them down or dulled their orienteering skills. And then there was Greg ten minutes clear of Alan with two new Red Short runners in Amber and Erica snapping at Alan's heels. It's great to see people challenging themselves by taking that step up a grade.

Phil Costly, isn't he NZ's top Marathoner or something? The course was 4.3 kms but I think Phil may have done closer to 6.3 kms. He mentioned something about the Hare and the Tortoise theory. Very close for 2nd, 3rd and forth with Paul just holding off Faye and Josie on the orange course. The Jones men, two new faces, had a go at the Yellow course and obviously liked it but behind them was last years White course winners Cara and Scott handling the move up well.

Josie said Erika and Conal had asked for club tops and were told when they win their course they would get one, so Conal duly went out and won the White and I reckon Greg's efforts were equal to a first as well.

The weather was kind to you, apart from being a little muggy and it sounded as though you all enjoyed yourselves. My one grizzle, helpers to get controls in, thank-you to the same people who get thanked at just about every event. There is a lot of work that goes into organising an event, those of you who have never collected controls before, plan to stay later and help out; get to know some of your fellow club members, go out and collect some controls without any race pressure on you, it can be a very enjoyable and rewarding experience. Take the time to really look at the map in relation to the ground, you can learn a lot from a quiet collection trip. Or go around with one of the more experienced orienteers they are more than happy to have their brains picked.

Oh yeah thanks Ken, for all your help.

Richard.

---

## Port helps student achieve goal

The Port of Napier is helping Hastings Girls' High School head girl Mikaela Harker achieve a goal — sailing on the youth training vessel, Spirit of New Zealand. The port is giving her \$500 toward the cost of the 10-day voyage. Miss Harker is a member of her school's A canoe polo team. She is involved in lifesavings and has earned distinction and instructor awards. She enjoys all water sports.

---

## ORIENTEERING

# Morrison, Watson families top

RUSSELL WILLIAMSON

The Morrison and Watson families were outstanding as their Hawke's Bay club won 11 titles at the national orienteering championships at Mauriceville, near Masterton, over Easter Weekend.

In classic distance events on day one, the club won four of eight junior titles at stake — Ross Morrison retaining the M18, Amber Morrison winning the W16, Emma Watson the W14 and Helen Watson the W12. Fathers Peter Watson (retaining his M40) and Derek Morrison (M50) made it a gold medal haul of six for the day.

Adding to the club success was the domination of the W12 race with Cara McDonald and Kate Morrison following Helen Watson to the finish line to make it a Bay trifecta.

The family affair continued the short course championships on day two with Peter Watson and Derek Morrison completing the double and Caroline Watson taking the W40 title. Cara McDonald went one place better to win the W12 short title for the club's fourth title of the day.

Hawke's Bay snaffled the 11th title of the weekend in the relays on day three with the club's top team of Mark Hudson, Ross Morrison and father Derek retaining the mixed long course title with a comfortable win.

The Bay's second team of Geoff Morrison (Derek's brother), David Costigan and Todd Oates produced a tremendous run to finish third in the strong 56-team field.

In the mixed short relay, the Watson family team of Peter Emma and James repeated their second placing of last year.

## PUKEORA HILL

Setter; Tom Fargher.

Vetter; Doug Matherson.

This time I thought I would do it right. Days of planing, days on the map, setup early, plenty of time.

Instead I received the first map on Wednesday, it was a bit small Dave.

Pam and Geoff drooped off a large stack on Friday. Thanks!

Half an hour study , a few circles, a quick call to Doug, all set.

Doug and I met on the map, put out the controls and went home for lunch. No problem.

After making up control descriptions and printing them, all was ready.

Sunday, at the start / finish area early. Doug went of to put out one more control ( missed it Saturday) I set up the event center, then took it down and put up the tents (it started to rain!) and set up the event center again. No toilet again, sorry about that!

Lots and lots of people came ( we ran out of maps with fences, bugger.)

We hope you enjoyed the event. We enjoyed setting it.

THANK YOU to all those who helped collect controls and dismantle the event center. The center of the map has been sold for grape growing , so we may not be able to use this map again.

See you at the next event.

A man has tickets for the Rugby World cup final. As he sits down, another man comes and asks if anyone is sitting in the seat next to him. "No" he replies, "It's empty"

"This is incredible," said the man. "Who in their right mind would have a seat like this for the World Cup Final, the biggest sporting event in the world, and not use it?"

"Well, actually, the the seat belongs to me. I was supposed to come with my wife, but she passed away. This is the first Rugby Final we haven't been to together since we got married in 1987".

"Oh ... I'm sorry to hear that. That's terrible. But couldn't you find someone else - a friend or relative, or even a neighbour to take the seat"?

The man shook his head. "No they're all at the funeral."

# PUKEORA HILL - 26 MARCH, 2000

## SMEDLEY STATION – 2 APRIL, 2000

There seems to be a perpetuating myth in some areas that newcomers to the sport of orienteering won't travel far out of town to events. It seems that this isn't proving to be true in HB. In consecutive weeks we've had club events at Pukeora Hill and Smedley Station – with attendances of 52 & 68 (maps sold). Both events are over an hours travelling for Napier people – so, thanks for coming everyone!

Smedley was the penultimate event before the North Island Secondary School Champs, so it was good to see so many new faces honing their skills. This contributed to excellent fields in the yellow & white courses, as parents and siblings got dragged out as well.

Fastest time on the white course was Daniel McCormack (NBHS), who is saving himself for the NZSS Champs, as he is unable to make the NI event. Close behind was the youngest of the Spall clan, Robert (Kereru), who we will hopefully see at the HB School Champs.

The yellow course produced another good result for Scott McDonald, who seems to have mastered this level without a problem. Close behind was Bevan Callaghan, another NBHS prospect who is also saving himself for the NZ Champs, as he is unable to make the NI event. He finished the course successfully and in good time, despite not drawing the last two control circles on his map. Cara McDonald held the upper hand on this course in the battle of the girls, with a narrow (5 seconds) victory over Jess Fargher, who is taking up the 3<sup>rd</sup> place in the HGHS team, to enable them to field a senior girls relay team.

The orange course produced a confidence boosting result for David Costigan, who will lead a team of 6 from Lindisfarne to the NISSC. On paper, the St Johns intermediate relay team of Jason Russell, Philip Hurring and Josh Wynands look to have a bit too much experience for the Lindisfarne team of David Costigan, Michael Jones and Sam Dykes – but who knows – anything can happen in relays!

For me, the outstanding result of the day was Philip Baker's on the orange course. Hopefully the pre-start reminder of keeping your map orientated and using big attack points helped – well done!

Josie Boland & Faye McDonald continued their battle on the orange course, with Josie snaring victory by one & a half minutes. Afterwards they both attempted the red short course – with Josie displaying the best fitness and producing another good result. Poor Greg!

Thanks for the day go to –

- Beryl & Scotty Smith who travelled out to Smedley on Saturday and helped with the set up – caravan, toilet & string course – thanks a lot, it was a help having those jobs done.
- Geoff, for his tireless work coaching and helping the new people get started – he was only able to manage a late start and wasn't able to beat control collectors to a couple of sites.
- Dave Fisher – for dismantling the toilet – the job which is last on the list for offers.
- Everyone else who collected controls – the job was done so efficiently, that we were all packed up ready to go, just after 3.00pm.

PAM

## Seafield Road, OY2

I have enjoyed competing on the Seafield Road map so I was really pleased when I was allocated the setter's job for an OY event there this year.

I learned with setting my first event last year that everything takes at least twice as long as expected and so I ripped into the work early. With more than two weeks to go all the courses were on paper and I had checked out all the sites out at Seafield Road. Great! Everything's under control. I can relax and enjoy.

I had been in contact with the forests Canadian owner, Andy Porter, and he invited me out to visit him at his hut on the property where he was spending some time. He obviously loves his forest and fortunately for us believes in a longer rotation period than most New Zealand foresters. If it had been New Zealand owned, large portions of it would have been harvested already. He has a high opinion of our club and is very happy for us to use his forest. He was particularly impressed that when he checked after last year's event all he found to show we had been there was one apple core.

My relaxed attitude changed somewhat when, during one visit, I found a contractor pruning and thinning a section of the forest through which both the Red Long and Red Medium courses were passing. Was it going to be impassable? Not according to the contractor although some of you may choose to disagree.

Next I was contacted by a car club member who informed me that the day of our event their club was going to hold a hill climb at Seafield Road and the road was going to be officially closed from 8.30am to 5pm. Negotiations commenced. The compromise arrived at resulted in us having separate start, finish and parking areas. It was that or re-do all the courses. At last the problems were over – no?

On the day before the event Derek and I were out early putting out the flags and making last minute adjustments to the courses. It was slow work but everything was going to plan when I suddenly realised I had not picked up the maps from the photocopier which would now be closed. Instant panic! I rang Faye, who, after three hours work found the owner of the business just before she left for an evening out. I don't quite know how I am going to repay that one but she will find a way.

The day itself was a breeze by comparison. The weather was fine, the numbers were good, particularly with the Development Squad being there, and the hill climb (car not Red Short) provided that extra bit of entertainment. The Red Long course (Derek's creation) provided a real challenge as did the Red Short which was, on reflection, too steep.

Congratulations to those who got around, thanks to Dave, Pamela and particularly Faye with the maps. Finally thanks to Derek for teaching me so much about course setting. Give me a year and I will probably feel like doing it again.

Rob McDonald

## THE EXPERT AT SEAFIELD ROAD

As course setter at Seafield Rd Rob asked the winner of Red Long, Jamie Stewart to draw his actual route on the map, and to give a brief description of 3 or 4 of what he considered were the best route choice decisions he made and why they turned out to be his choices.

Following is Jamie's response and a copy of the Map is on the next page.

- 5 - 6. There were many route choices, both left and right of the red line. I decided to stay high and avoid climb, there had been plenty already! There is a possibility that the route choice to the right may have been quicker, but there would have been little in it.
- 7. A lot of people made a mistake in the control circle on on number 7, lack of confidence in the low visibility leading to people stopping short of the control site.
- 7 - 8. Possibility of an outrageous route choice wide to the right had to be discarded due to simple route choices closer to the red line. Some trouble had by those people taking on the dark green.
- 11 - 12. Controls such as these in rough low visibility areas are hard work for everybody and this needs to be appreciated when slogging through up to your waist in thinnings.

Jamie Stewart

Thank - you Jamie for sharing that with us. For those that do not realise Jamie was here taking part in the Junior Development Squad Camp.

Please note also that the two fingers of forest north of the main forest were marked ( or should've been ) with green stripes: undergrowth - slow running. - Ed
