

SEPTEMBER - OCTOBER 2006

# COMPASS POINTS

Compass Points is the bi-monthly magazine of the Hawke's Bay Orienteering Club Incorporated.

Our Vision Statement – All people in Hawke's Bay will recognise Orienteering as a genuine sport or recreation, and will have the opportunity to experience and enjoy it.

## EDITORIAL

There's been a lot happening in the last two months for keen orienteers, with both the Auckland and Wellington Champs, our HB Score Champs and two tough OYs, plus seven of our juniors have had two weeks of Orienteering in Australia. Read all about it here in the magazine. There are only two foot –o events left on our calendar this year but there is a rogaine here in December plus there is information about two junior camps (the best way for our youngsters to improve their orienteering.). And I expect to see you all at the AGM and Prizegiving, which is really the only social event we've had this year.

Thanks as always to all those who have taken time to contribute to Compass Points. I really appreciate it. And a big thanks to Steve Armon who has offered to take over as Editor of Compass Points as of 2007.

# President's Report

The year is drawing to a close with only an OY, the Red Kiwis challenge and the HB Rogaine to come. All three of these events will be great. The Red Kiwis challenge will be a chance to show them once again who is the top club so get yourself organised and book a seat on the mini bus. The Rogaine is a must. They are so much fun. You get to see a new piece of HB and the day has a real sense of adventure to it. If you haven't a team mate talk to Geoff or myself and we'll match you up with someone suitable.

After these events we have the AGM Prizegiving. We are still looking for volunteers to fill committee vacancies (Treasurer and Equipment) so give it some thought and talk to the current committee if you want to know more. Don't be put off coming to this evening as the AGM only takes up a small part of the night and there is plenty of time for socialising and enjoying the evening.

Looking to next year we have a new Compass Points editor in Steve Armon and Rob McDonald is co-ordinating the major event at Labour weekend.

Last weekend at the Smedley OY I was really impressed by the positive feed back given to a young setter. It's really pleasing to see club members encouraging and thanking especially after such a hard day on some physically tough courses.

Finally some congratulations . Firstly the club juniors who were in the NZ Secondary team in Perth. They all did really well and Derek Morrison should be thanked for managing the group. Also recently a few club members took part in the WOA champs. Amber Morrison had the distinction of winning all four of her events making her the W21E champion! There were at least two other grade winners and a number of place getters. Well done all of you.

Cheers

Hamish.

## *Committee News*

- AGM Dinner and Prize Giving on the 15<sup>th</sup> December. Cups and trophies are to be **cleaned, repaired** and returned to Kirsten from now please.
- Situations Vacant: Treasurer; Equipment Officer; Committee members. Yes, this does mean **you** and your valuable input!!
- Labour Weekend 2007: This will be our major national event for the year .
- Thanks to the awesome Vanessa at Rush Print (who have closed down) for her stirring work for us over the years, it will be missed.
- Red Kiwis Event on the 26<sup>th</sup> November - remember to book your seat on the vans NOW!!
- We have applied for funding for the new caravan - we will know of the outcome at the end of November. Fingers crossed!!

# COMING EVENTS

## November - December

### MARK YOUR CALENDARS NOW

#### NOVEMBER

- 12<sup>th</sup> Te Awanga. OY6.
- 26<sup>th</sup> Red Kiwi Challenge. See information this issue.
- 27<sup>th</sup> Entries close for the HB Rogaine.

#### DECEMBER

- 9<sup>th</sup> The HB 'December Dash' Rogaine. See information this issue.
- 15<sup>th</sup> HBOC AGM and Prizegiving, Havelock North Community Centre. See information this issue.
- 18<sup>th</sup> - 22<sup>nd</sup> Junior Training Camp, Rotorua. See information this issue.

Orienteering On-line at [www.nzorienteering.com](http://www.nzorienteering.com)

## NZOF NEWS – SEPTEMBER 2006

### CHANGE OF VICE PRESIDENT

Following his decision in July to stand down as President, Rob Crawford has now resigned from the NZOF Council in full. At its meeting this month, the Council co-opted Graham Fortune (Wellington) as Vice-President to Paul Dalton.

The NZOF thanks Rob for the sterling service he has given to our sport in his lengthy term on the NZOF Executive.

### FUTURE OF THE TECHNICAL COMMITTEE

The NZOF Council has decided to re-organise the administration of technical matters in our sport. Accordingly, from the beginning of 2007, the Technical Committee is to be replaced by a part-time contract Technical Director, assisted by a volunteer advisory panel.

### JWOC 2007

The NZOF Council approved a change to the JWOC selection policy for 2007. The date for final selection of the 2007 team has been extended past 28 February to within two weeks following Easter.

### NATIONAL EVENTS DATABASE

The NZOF has adopted the national events database, developed on the maptalk website, as an official event calendar. An agreement has been signed with Fraser Mills, owner of the maptalk website. Clubs will be contacted separately regarding using the events database ([www.maptalk.co.nz](http://www.maptalk.co.nz)) for 2007 and beyond.

### CLUB AFFILIATION LEVIES FOR 2007

In line with the policy set by the 2001 AGM that club affiliation levies are to be “inflation linked”, the total levy across all clubs for 2007 will be \$14,100 (up from \$13,600 this year).

### COMPETITION RULE CHANGES

The following rule changes, recommended by the Technical Committee, have been endorsed.

- That for the national inter-club relay championships, each team must contain at least one woman.
- That the controller accreditation process be primarily based on a “buddy system”.
- That event reporting be by the controller rather than the coordinator.

Changes involving course structure (including an additional course for older classes and changes to expected winning times) will be circulated for further discussion.

## **NATIONAL MTBO CHAMPIONSHIPS**

A record entry competed in this year's NZ Mountain Bike Orienteering Championships hosted by Peninsula and Plains Orienteers at Hanmer Springs, 2-3 September. Well done to PAPO and in particular Roz and Andy Clayton and Graham Frith.

## **ACKNOWLEDGMENT**

The NZOF acknowledges, with appreciation, a grant from the **New Zealand Community Trust** to assist the NZ Schools team's tour to Australia for the Australian Schools Championships. The team competes against the eight Australian states for the Southern Cross Challenge Trophy on October 3<sup>rd</sup> and 4<sup>th</sup>.

## **AGM 2007**

The 2007 Annual General Meeting of the NZOF will be held on Friday 6 April at Wesley College, Pukekohe.

## **NZOF VACANCIES 2007**

The following national volunteer positions are currently vacant for 2007.

- National Squad Coaching Coordinator
- Development Squad Coaching Coordinator
- Editor, *NZ Orienteering*
- Media Officer
- Selection Panel (one position, applicants must be nominated by a club)
- Ampro Liaison Officer.

If you are interested in any of these positions, please contact the General Manager for a job description.

**Access Immigration NZ Ltd**

**Trillian Trust**

# NEW NZOF POSITION ADVERTISED

The NZOF wishes to establish, as from 1 January 2007, a new part-time, paid contract position of Technical Director. The Director (along with a volunteer advisory panel) will replace the existing Technical Committee.

## TECHNICAL DIRECTOR

The Technical Director will be primarily responsible for:

- ensuring that major events are graded accordingly and organised in compliance with the NZOF Rules;
- that recommendations are made on competition rule changes;
- that training and information is provided in the areas of event controlling, mapping and course planning;
- that grading of existing and new controllers is carried out;
- that changes to international rules and mapping specifications are reviewed and information and recommendations provided where necessary;
- reviewing as necessary and keeping up-to-date the NZOF Health and Safety Policy, and related schedules.

This is a part-time, paid contract position. A job description is available from the General Manager, Stuart Payne, 171A Fifield Tce, Christchurch 8023; Ph (03) 337 2275; Email: [nzof@nzorienteeing.com](mailto:nzof@nzorienteeing.com)

Applications close Thursday 16 November 2006.

## NEW MEMBERS

*A warm welcome to the following new members to the club. We look forward to seeing you at future events:*

- Simon Wallis
- Gus & Tom Prescott
- Angela Revell
- Lea Stuart
- Mirko Zatezalo

# Magic Moments

*News about WOA's High Performers...*

Herd Homes Central Magic has successfully defended its title at the recent Rotorua Ekiden Relay in the Open Men's Category. The course is the same as the Rotorua Marathon, a complete circuit of the lake. The team of Neville Smith (HB), Andrew McCarthy (HV), Ross Morrison (HB), Karl Dravitski (OT), Scott MacDonald (HB) and Bryn Davies (RK) completed the race in 2:33.53, 3 and a half minutes clear of 2nd placed team from Hamilton. The team was just 48seconds slower than its own race record which set last year.

2006 also saw a womens entry from Herd Homes Central Magic (with one runner borrowed from Auckland). Amber Morrison (HB), Emma Watson (HB), Lizzie Ingham (WN), Piret Klade (RK) and Greta Knarsten (CM) had an extremely fierce battle with the Mount Maunganui Harriers throughout the race. In the 2nd to last leg Amber Morrison demolished the Mount Maunganui runner to open up a 1 1/2 minute lead, which was then extended to 3 1/2 minutes by Greta Knarsten to comfortably win the Open womens grade.

Unfortunately due to injury, Magic only had 5 women running in the 6 person relay, with Amber Morrison completing 2 legs. This resulted in a protest being lodged from the 2nd place Mount Maunganui team, and Central Magic was disqualified. Nevertheless Magic fielded the fastest mens and womens teams on the day and is looking forward to taking both grades out next year.

Magic member Neil Kerrison has placed 11<sup>th</sup> in the World Rogaine Championships in NSW, Australia. He teamed with Jamie Stewart who is expected to join Central Magic shortly. The 24hr event was won by Southerly Storm members Chris Forne and Dennis De Monchy, the latter growing up in Magic territory – Lower Hutt. And although living in Moscow at present, former winner Greg Barbour is also a Magic member – he belongs to Orienteering Taranaki. Barbour and his Australian partner David Rowlands placed 5<sup>th</sup>. Awesome effort guys!

Kerrison has recently resigned from the position as NZOF Development Squad Coach, after almost 3years. He has done some amazing work with many NZ juniors during this time (including some of up-and-coming Magic members).

Claire Paterson seems to be no closer to a diagnosis for her ankle troubles. She sat out the Auckland and Wellington Championships, but has decided to resume gentle training. Best wishes Claire.

And Magic Captain James Bradshaw recently attended a glitzy and glamorous Auckland University Blues ceremony. He received a University Blue for his academic achievements and Orienteering results and representation over the past 12months.

The Shepherd

**Stop Press:** The WOA Champs kicked off the 2007 Superseries, and Magic is unofficially 15 points ahead of Southerly Storm, beating them on three out of the four events. The Northerners are nearly 200 points behind. Karl Dravitzki and Amber Morrison are the WOA elite champions.

October 2006

Dear Club Members

I enclose the notice of the Club AGM and prize giving dinner, to be held on Friday, 15<sup>th</sup> December at the Havelock North Community Centre.

Because we would love to see as many of you attend as possible, the club is subsidising the cost of the dinner after the AGM. The cost of the meal will therefore be \$10.00 for each adult and \$5.00 for each child. There are bar facilities available.

The Club formalities are only a small part of the evening and this is an ideal opportunity to socialise, while the venue has plenty of space for the younger members to occupy themselves during the meeting.

So that the catering arrangements can be completed could you please advise me if you will be attending by Friday 8<sup>th</sup> December.

Our committee always needs new people and we would like to encourage you to put your names forward if you are interested in becoming involved. Please contact me at the address below if you are keen so a formal nomination can be arranged.

We look forward to seeing you all there on the 15<sup>th</sup>.

---

Yours faithfully  
Kirsten Hughes  
HBOC Secretary  
874 9650  
email: [bhaven@xtra.co.nz](mailto:bhaven@xtra.co.nz)

# Volunteer of the Month

## September David Fisher

As well as being the HBOC archivist, Mr David Fisher is responsible for OCADing many of our maps and is the person that people in Napier turn to when they need map corrections, help with Condes and other mapping issues.

**How long have you been involved with orienteering?**

20 years

**How did you get involved in Orienteering?**

Winter windsurfing was no longer fun so I was looking for something to do when my parents suggested I try this new sport they had recently taken up.

**What do you remember about your first event?**

Can't remember where or when, but I do recall there were fewer than 20 people, the colour coded course system hadn't been invented, I wore my tramping boots and certainly didn't run anywhere.

**What course do you usually run?**

Red Medium (slow)

**What do you enjoy about Orienteering?**

Every event is a new challenge of both a mental and physical nature.

**If we met you during the week, what would you be doing?**

I'm taking a breather from the computer profession at the moment. I could be sprucing up the house or drawing maps, playing golf or paddling a sea kayak.

# Volunteer of the Month

## October – Alan Berry

**Although Alan is constantly involved in many areas of the sport, he is nominated for his work with the mapping group; keeping and circulating minutes and ensuring the right people are informed of mapping possibilities and developments.**

### **How long have you been orienteering?**

Sixteen years, although it is not obvious sometimes.

### **How did you get involved in Orienteering?**

My first contact with the sport was a challenge event between the Heretaunga Tramping Club and the HBOC on the old Whirinaki map behind the Panpac mill, in Oct 1990. I competed as a member of the tramping club. Running around among pine trees seemed like a lot of fun so I dropped squash and took up orienteering. I still do a bit of tramping though.

### **What do you remember about your first event?**

My first club event was a relay event on the Lower Tukituki map, in a team with Amy Lee and Pim de Monchy. What could be simpler than running up and down and finding a few pretty flags on a riverbed? Ha ha. The most memorable part was sitting in the sun having lunch.

### **What course do you usually run?**

Not knowing any better, I ran the Red Long course at my first real event, an OY on the Granules (now Maraetotara) map. Being used to 1:50,000 maps of the ranges, I wondered why I kept overrunning the controls! It has been all downhill since then and I now run Red Short in serious events, or Red Medium when it is just for fun.

### **What do you enjoy about Orienteering?**

There is something magic about getting out into the country and running around in the bush, slogging up the hills and splashing through the creeks. Also, orienteering is the sort of sport where you are never satisfied. I am sure that I will do better next week, so there is the consistent challenge to improve. And a real bonus has been the great people that we have in the club. Without them the sport would be nothing.

But of all events the rogaines are what I have enjoyed most. Twelve hours and 41 kms over beautiful terrain at Puketitiri a few years ago, in company with Pamela, has been my most satisfying orienteering experience.

### **If we met you during the week what would you be doing / what's your job?**

Specialist company work, valuations, mergers, that sort of stuff: trying to keep track of thousands of telephones (I half own a Telecom dealership); mapping fieldwork and cartography; collecting the pension; but if I had to use one word I would just say 'accountant'.

# Eye in the sky

## By the magpie

- Welcome to the wedding season! Yes, 3 of our members are getting married over the next few weeks. Lisa Frith and Tim Eagle are getting married on November 11, while Henry Porter is tying the knot a little later on. Perhaps with the youthfulness of our club, this magazine might turn into a 'Woman's Weekly' type publication! Good luck to you all, and see you on the startline at 10.30am at Te Awanga on the 12th.
- That Smedley Gorge is a wonderful place. Rob McDonald left his control, and was careful in his attempt to get to the next without mistake. After 10 minutes of perfect navigation he ended up back at the control he had left from.
- Duncan Morrison is working hard on his fitness. While collecting controls at Smedley, he returned via the horse paddock. Never has anyone moved so fast while armed with controls as he did, as he crossed the paddock with the horses in hot pursuit.
- The HNHS girls orienteering team won their schools 'Top team' trophy at the schools annual sports awards. This is the second year in a row they have achieved the honour.
- Super sleuth President Hamish, played a part in tracking down criminals in Perth. He and Mark Lawson heard braking glass coming from the team buses at a social for school teams at the Australian school champs. On inspection, found a trio up to no good, so called the police. But they continued to monitor the crims, peeping around corners and observing from the shadows until the arrival of the law, armed with spotlight in a SUV. Pointing them in the right direction, our super-heroes watched as the spectacular chase ensued culminating in the arrest of our light-fingered friends.
- Aari Barrett has gained a contract with a sponsored mountain biking team. This means he is committed through to April. This is a huge breakthrough for him, so good luck to him. All he has to do now is stay on his bike and stay in one piece!
- Kate Morrison spent several days in hospital in July, going down with viral meningitis. The specialist that looked after her was Otto Leiti, who has been taking part in recent events. One wonders with the amount of medical personnel in our orienteering club, perhaps we should open our own private hospital.
- Speaking of medical personnel, two time NZ elite women's champion, Dr Penny Kane has taken up a position at Gisborne Hospital. So her and fellow elite Jamie Stewart are very close to making the big shift to Gisborne. The pair coached at our junior camp in 2005. Jamie has been a member of our club previously.
- The signposting at Smedley was a bit dodgy. Nic Harty followed the arrow straight up the driveway to a house, when the direction intended was for parking to be down the road! Bet he wasn't the only one.
- Amber Morrison was awarded a University Blue at Victoria University for orienteering. Congratulations Amber.
- Ross Berry and Sarah Lambert have made Alan a Grandfather again. Meg is her name, well done all.

# Coaching Corner

## Rogaines

The HB rogaine is coming up in December, and hopefully we will get a full muster from the club. Rogaine are very much a fun event and I really enjoy them, so if you haven't a partner yet, get onto it fast! Here are some hints before you start

- Pick a compatible partner. Fitness, strength, humour and mapskills are all important factors to consider.
- Plan your food intelligently. Carry plenty of water. It is your motor. Things such as baked potato, bars, peanuts, fruitcake or even a few breadrolls are great.
- Remember, the map will be at 1:50,000 with 20 metre contours. This means only BIG spurs are shown and BIG re-entrants. What sometimes is shown as a stream, can often be a quite steep gorge!
- Take a piece of string about the equivalent of how far you expect to go. Maybe 40km in 12 hours would mean you would have a string of about 80cm. This helps ascertain quickly what area of the map you can get to and back.
- Highlighters are useful for marking the high pointers for easy reading while you are planning.
- Remember, you get plenty of time to plan, so use it all wisely.
- Look for clusters of points.
- Don't get sucked into getting very low pointers. Consider value v time.
- Use your height, remember they are 20 metre contours.
- Keep available a return route with points available if time becomes a problem. Be flexible in planning for your last couple of hours.
- Don't be late back.
- It is just like a large orienteering score event.

Good luck  
Geoff

## **EMPLOYMENT WANTED**

**\* Cara McDonald is seeking fulltime work for the holidays (early Dec until early Feb) to earn money for her studies at Victoria University next year. She has worked at the Hastings Library for 4 years and has experience in dealing with customers and handling cash. As most of you know she is confident, competent, hard working, honest and reliable and is not afraid of hard work. If you can help, or know of someone who could help, please contact her at 8760146. Thanks**

**\* Scott McDonald also needs a job for the holidays. Because of his training schedule and sporting commitments he does not have an after school job, but would love to earn some money over the Christmas holidays. He is available from late December until the beginning of February. Part-time work would be fine. Please contact him at 8760146. Thanks.**

**McDonalds Home Bakery will be on holiday after Te Awanga until the farm events start next year. Scott would like to thank you all for your patronage during the year as your purchases helped to fund his trip to Australia.**

**If you would like to purchase any baking over this period both Cara and Faye are able to bake on request, so please just ring and ask. McDonalds Home Bakery, ph 876 0146.**

# AUCKLAND CHAMPIONSHIPS

A small contingent from HB headed north to the Auckland Champs held on the weekend of September 23/24<sup>th</sup>. Half the group were HB juniors, getting in some last minute practice before the NZSS trip to Australia, and most of the rest were associated family members. Both events were in Woodhill Forest and both were at least one and a half hours drive from central Auckland. It makes you appreciate how close we are to most of our maps here in Hawkes Bay.

The first day was a new map, right at the northern tip of Woodhill – White Lightning. Expecting fast times perhaps? Certainly Chris McD (M14) and Duncan Morrison (M16) showed the way with wins on that first day in what was quite open coastal pine forest, good for the fast runners. Actually nine of the 13 HB starters had top 3 finishes – and not always because the fields were small! Fields were very small for many grades but looking at it another way 8 of the 13 finished in the top half of their grade, so it was a good showing from us all.

Day Two was on the tough Waioneke map and Jaime Goodwin(W16) and Jack Vincent (M20) both came through for wins. Most runners made mistakes – it's just that some were more costly than others. Again we did well overall with 10 top three placings.

The weather was fine, the organisation was good (although the 30+ minute walk to the start on Day 1 was quite something!) and the maps were great for HB runners, who enjoy (?) the different terrain of Woodhill.

Of course, as HB club members, no-one was eligible for a title, but if they had been on offer, Jaime Goodwin (W16) would have been the only winner for the combined two day event. Of the 'oldies' the best was Hamish, with two 2nds in a sizeable field, making him 2<sup>nd</sup> overall in M40.

As usual when orienteers go away a good time was had by all. On the social side, honours for the top performance at Ten Pin Bowling would have to go to Derek Morrison for an outstanding performance from a novice. And just as well Duncan orienteers better than he bowls!!

# Wellington Championships

Wellington Champs at Labour Weekend in Wanganui offered three days of racing on coastal maps and was thoroughly enjoyed by the small group of HB orienteers who made the trip. Pity about the weather!!

The first day was Wiritoa, and most people seemed to make mistakes, many getting caught in the technical legs in the pine forest. It started raining later in the day and unfortunately didn't really stop for the remainder of events. It is always disappointing when it rains at events because the social element disappears as people shelter in their cars and don't have the chance to enjoy the usual 'after race' social pleasantries.

Sunday morning was at Marangai East. Because of the rain later starters, except for those with 4WD, had to park some distance away from the event centre and walk an extra 20 minutes. For those of us in that position we were well and truly soaked before we'd even started!!! Most of us were glad when our courses moved from farmland to forest to get some shelter from the rain. Easier terrain and faster times were the order of the day. A sprint was on offer in the afternoon at Scoutlands, many enjoying yet another run around in the rain.

Monday was Marangai West and this time, because of the muddy tracks, everyone had to park their vehicles away from the start/finish area and walk 20 minutes, although to compensate (?) the finish was just a sport ident box and you downloaded your results back at the parking area where the trees provided some shelter and gave people a chance to talk about the three days.

Instead of the usual 2 day Wellington Champs, this year it was over three days with the combined total of the races deciding the winner. For most grades this was just the three races but for M/W20 and M/W 20 E it also included the sprint. Amber Morrison was in great form and won W20 E, with other grade winners being Rachel (W18), Duncan (M16), Jaime (W16), Craig Skeats (M10) and Scott (M21A – long story about ending up in that grade!). Many others had top three positions overall or at least had a good run somewhere along the way.

And if you weren't aware, the Wellington Champs are being held in HB next Labour Weekend, along with the Central Districts Champs, so it will be a great long weekend of orienteering right on our door step.

## The Australian Carnival.

As most of you will realise, some of our talented juniors spent most of the last school holidays as part of the NZSS team, orienteering in Australia. For the last four years NZ has been invited to send a school team to compete against Australian State School teams in the Australian Schools Championships. The team comprises 16 students with four each of Junior Boys/Girls and Senior Boys/Girls plus a Manager and Assistant Manager. They compete in State Championships and the Australian Nationals as well as the School Champs, all three events held as part of a two week carnival (with MTBO at the end).

This year the Carnival was in Western Australia and Hawke's Bay supplied seven of the 16 team members plus Derek Morrison was the Manager. Nearly half the team!!! Go Hawke's Bay!!! For the School Champs top three runners for each State/NZ get points in the Individual race, then each relay team earns points, with the Southern Cross Trophy being at stake. For the fourth year running NZ was able to bring the trophy back to NZ.

All HB runners had their share of good runs (1<sup>st</sup> places in one of the five Individual events for Scott, Duncan and Jaime plus two relay wins for Scott, Duncan and Jack and one relay win for Jaime and Kate) and the following pages will let you know what they thought about their wonderful experience in OZ.

# JAIME'S JOURNEY

My first schools trip was awesome! We had over a full week of challenging orienteering, on a variety of interesting Western Australian maps. We had over a full week to meet new people and see old friends. We had over a full week to drive Derek, Julie and Mark crazy. More importantly, we had a full week to show those Aussies how to orienteer in their own country!

The first event was the Western Australian Champs. This was held over two days on eucalypt forest maps. The map was called Darkin River. There were clearings covered in bare rock, thick patches of prickly, grass bushes and undulating terrain, which was difficult to recognise, and a lot of boulders.

The day 2 map was fairly similar. We had the same finish and event centre, just a different start area. If anything was different it was the amount of boulders and a few. It was a great start to the carnival, I especially found it a great confidence booster!

The second event was the Schools Champs. This was what we had come for. The map was called Peterdine Hill. It was again a eucalypt forest map. There was excellent visibility and fast km rates all around. The area had large bare rock patches, a heap of boulders and huge clearings of open farmland.

Overall New Zealand did really well in the Schools Champs. Everyone represented New Zealand fantastically! Special congratulations to Emma, Laura, Scott and Thomas, who all achieved a placing in the top three! Awesome work guys!

The relay was on the same map, but south of the previous area. This was pretty much all open farmland, it was fast and easy orienteering all round.

The Junior Girls and Boys and the Senior Boys won their relays, and the Senior Girls came 3<sup>rd</sup> behind ACT and Tasmania. We managed to retain the Southern Cross Trophy! Yay!

The final event was the Australian Championships. This began with a sprint event in the historic town of York, about an hour and a half drive from Perth. The map was the town and the Avon River. The start and finish were on the main street, which was closed for the event. The ice-cream shop would've made millions that day! Times were extremely fast with less than 4-5 minute km rates in most grades!

After a model event, we next had the Long distance champs...

Talk about rocks... Hamish nearly wet his pants driving in! If you think Maraetotara is bad, then you've got another thing coming! The map was relatively open and extreme care was used in the control circle, as there was a huge amount of rock detail, which confused even the best orienteers. Poor Mark Lawson (M21E) had to run 15.8km!!!!!!!!!!!!!! It was really fun running on the map, I've never experienced anything like it in my life I really enjoyed it!

Yet again we proved to the Aussies how good we were!

Lastly was the relay. The map was located 6km to the west of the Long Distance event. It was again fast and relatively open terrain with lots of rocks. The contours were a bit more defined on this map, although they were still nothing like New Zealand.

New Zealand had lots of top three placings and lots of victories as well!!

*Jaime*

# Aari's Ankle, and other Experiences in Oz.

Australia, the second experience, was quite different than the first. The maps and terrain were quite different to Tasmania and the place we stayed as a team was great. I enjoyed catching up with people who had been in the team the year before although there were some who I have remained in contact with since the trip in 2005.

The second day of the competition I sprained my ankle during the race. I managed to complete the second half of the race but I knew that it would keep me in check for both the next races and the 'non competition' activities. As there were no crutches for me to use, we found a supermarket trolley that replaced a wheel chair - quite entertaining with Simon and Andrew as the drivers. We brightened up the day of the assistant of the ice cream drive through place as we went through the drive through to buy ice-cream - me in the supermarket trolley! Following car drivers were equally entertained. Don't worry we didn't have our NZ gear or Hawkes Bay O tops on. Luckily after a days rest and some serious strapping, I was able to run in the remaining events.

Later during the week, we kiwis decided we wanted to play a game of rugby so we challenged the Aussie teams to a game. We were an unstoppable force, Graham Henry would have been proud of us. Unfortunately, Andrew's head collided with a hard Aussie knee and he suffered a touch of concussion not that anyone initially believed him as the night before he hit his head on the ceiling fan and pretended he was concussed, so when it really happened we thought he was up to the same joke.

The orienteering was challenging with lots of rocks, huge hills, dense sections of forest and worst of all, heat. Running in 29 degree temperatures was hard work. The features on the maps – or not! made relocating hard if you went off course. I liked the sprint event most and had my best result in it. It was good to see the success of the other team members and NZ participants and seeing the trophy back in the hands of the NZ team was great.

Thanks to Derek and Julie, as coach and manager, and the other supporters who travelled to Perth.

*Aari*

# KATE'S COMMENTS

G'day mate!

How have you all been?

I guess you all would've heard that I was one out of the sixteen lucky secondary schools students out of New Zealand to be picked to represent our country in Perth, Australia in October this year.

We were overseas for a total of 12 days and competed in 8 different events with 2 training days too, so yeah, it was pretty full on but definitely worth it.

**Perth.** Well Perth was the farthest away from home I have ever been and it seemed a lot like home. 30degree heat, 110km/hr speed limits, gum forests on fire and a lot of bare rock and not to forget those Kangaroos!

Yeah, exactly like home! Just joking.

**Races.** The races were very competitive and quite different to here. The terrain was different, the forests were different, undergrowth was different and not to mention those different, twangy voiced competitors. Yes, those Aussies in their flash o gear but don't worry guys, us Hawkes Bay representatives kept on the tradition of shorts and T-shirts! Yea!! Well anyway we ran on some nice sounding maps like... Barkin River, Gunapin West, Malmalling, Old York town and the Avon River, Umuna, Peterdine North, Beraking Brook and Hill Park Dale. Just to name a few.

These maps were definitely challenging. I thoroughly enjoyed it though although sometimes on the maps there must have been a magnetic force or something making my compass put me off on a few of the courses? But besides that I suppose I had some pretty successful runs. Oh and I forgot to mention the Oz Champs day when I came 3<sup>rd</sup> out of a field of about 30 when I couldn't really see whilst running the whole way around the course because I got scratched on the eye at control number 2 and had to wear an eye patch for the rest of the day. Everyone called me a pirate, how nice, eh. Not!

**Social.** Socially the trip was awesome! We made tonnes of friends from all over Australia and they really enjoyed having us "foreigners" over in their country. Meeting all the different people from all the different states was really wicked and we had some memorable moments never to forget.

The actual social/disco was pretty good! Great to mingle and boogie on down with all the other competitors and relax and just have fun was really 'kewl'. And also Rachel was allowed to come which was pretty kewl for some of us New Zealanders. Eh Rach.hehehe? And not to forget the Haka done by the New Zealand boys and boy was that the WORST Haka I have ever seen in my life but the Aussies didn't seem to think so. Hehehe. But very nice pukana Scott!! Lol.

Really I could mumble on all day about the trip and how nice and hot it was and what beautiful beaches it had but I would rather keep it short so I don't bore you so much.

I had a great trip over with my dad and my brother and we just about went all over Australia and it was just oh so fun. Drive to Wellington, fly to Brisbane, fly to Adelaide and then fly to Perth. And on the way back pretty much the same except instead of Adelaide it was Melbourne.

**Thank-you.** There are so many people I would like to thank so if I miss you out, here is a general thank you for you now. Most of all I would like to thank my father; we all couldn't have done it with out you. Julie and Mark thanks for all your support. The Hawkes Bay Orienteering Club, Sport Hawkes Bay, and all you people who bought a sausage, this helped us out extremely and we will always be there at every O-ing event. Thanks heaps again and it was an awesome trip and I advise all you junior orienteers to start training hard for next year to try and get in the team and I guarantee you will have as much fun as I did and have the experience of a lifetime.

Thanks

*Kate Morrison* ☺

# The Ultimate Test

Another burning, hot day in the Ozzy outback, well in the small, vintage town of York actually. The town's main street has been closed off for a competition where runners run round attempting to find sticks with colourful flags on them and make them beep. Sounds strange, but this is the scene of the Australian Orienteering Championship Sprint Event and one that is all too memorable in my mind.

Running up a grade, from my normal M16 to M17-20E (junior elites) meant racing all the top Australasian juniors, which pumped me and made me excited. For the senior boys though their excitement was focused on the \$50 winning prize! The start procedure was awesome: collecting your map on the back of an old-fashioned truck and then burning off down a ramp onto the main street and onto your course around the isolated settlement of York. My course consisted of darting around old buildings, navigating around patches of ficht, crossing over a swaying swing-bridge and finishing with a 100m sprint back down the main street, only to be greeted at the end (amongst dehydration, exhaustion and realising I'd just mis-punched!) by a man, from some Australian Government thing, handing me a water bottle and telling me I'm gonna be drug tested!!!

They wanted a urine sample, but unfortunately I'd just sprinted 4km in the boiling heat and was slightly dehydrated so a urine sample wasn't going to just happen like that. Fortunately, though, they had a fridge full of bottled water, which came as a relief because I had no plans of spending my afternoon sitting around with a bunch of randoms, waiting to take a leak!

After two whole hours of seeing other elites come through, give a sample, then leave (including Tom Reynolds) and after gulping down 5L of water, I was finally ready. Luckily this part of the procedure didn't take very long, as they only needed 80ml, and after drinking so much water I was ready to give them a lot more than that!

I was eventually released and could now go and see how all my team mates did. And they actually did really well with 10 top 3 placings in our 16-man team and although none of our senior boys quite won the \$50 prize, they were only a toenail hair away (that's close). But still, it's always a pleasure to show the Aussies how it's done on their home turf.

This was just a slice of life of our awesome trip to Australia and I'm looking forward to competing there again sometime soon.

*p.s. If you were wondering, I haven't yet received results for the drug test but should in the next few weeks so I will let you all know!*

Scott

# A Survivor

My trip to Australia started with a big surprise... when I flew to Auckland my bag decided it would be wise to take the route to Auckland via Wellington, unbeknown to me. I then managed to misplace my passport due to members of the team being so well organized they picked mine up as well as theirs. Things then luckily calmed down for me, and I was able to continue heading on happily to the other side of Australia.

We ran just about every day over there, and I found the terrain on everything but the schools days much different to our forests here. The first couple of days of competition I could only explain by a quote of a senior boy from NSW, "that wasn't orienteering, that was SURVIVOR". I can say I totally agreed, and I know most of the girls and I were digging out the prickles from our legs for at least 2 days afterwards. It turned into quite the group activity.

The schools days reflected some of our Hawkes Bay terrain, just with more rocks and it was much faster terrain than the Western Australia Champs. I managed to have two very clean runs on both the individual and relay runs, and received a silver medal and a bronze medal.

---

The social side of the schools team was just what I expected. The New Zealand team was definitely the most willing to go up and meet the other teams first, and because of this we all made a lot of new friends, and I'm sure most of the team will keep in contact with many of the Australians. Many of us will be seeing everyone again in the beginning of January 2007 at the races that will be like JWOC 2007.

Overall the trip was heaps of fun, great competition with good company. It was made even better by the fact that my 18<sup>th</sup> birthday coincided with the only rest day!!

*Emma*

# PHEW! WHAT A GREAT HOLIDAY!!

5447 km away from home, lost in the bush having no idea where you are, wandering around in funny looking clothes looking for a orange and white flag with a beeper on it. Sounds a bit scary doesn't it? Luckily this didn't happen to me (much).

That's all part of the experience though.

For those of you who don't know where I have been I will tell you briefly. I was one of the sixteen lucky orienteers to be selected in the New Zealand secondary schools team to compete in the Australian champs. We were over there for twelve days and competed in 8 races. So as you can see there was not much time for sightseeing.

Now into the guts of it.

Our first competition was the Western Australian Champs, which was held over two days. The first day I did poorly coming 13<sup>th</sup>, miles behind the leader! (It doesn't help having a 12 minute control!). The terrain was broad and rocky, and the bush was reasonably thick. The second day I had a better run coming 3<sup>rd</sup> behind a Kiwi (not so bad) and an Aussie (that's bad!). This day's map was much the same as the previous, but thicker bush.

Now we had a feel for the maps and terrain, we were looking forward to the race that we had ALL come here for. The Australian School Champs. The night before we had a start draw, with all the teams. I was starting in the third block of start times.

We were now ready to go. When we got out there I breathed a sigh of relief, as the terrain was a lot more open – it suited us Hawkes Bay runners. I would have had a terrific run that day if I hadn't stuffed up the third control. Grr. I ended up 10<sup>th</sup>.

Luckily I got a second chance in the relay where I was first home out of the first leg runners, which set up our Junior Boys team for the win, after strong runs from Matthew Ogden and Scott. Overall the NZ team won comfortably, scoring 59 points out a maximum of 64.

Now it was onto the Australian Championships. In the sprint I won my grade. I was most impressed that they closed the main street of York for Orienteering, and in the Classic I came 2<sup>nd</sup> and was in the winning M16 Relay team.

Overall this was an awesome trip and it was a great experience. If you want to know more please feel free to ask me about it. Thankyou to Sport Hawkes Bay, HBOC, and a really BIG thank-you to Dad (Derek) for funding me, managing and mentoring the team. This truly has been the highlight of my year. Thanks again for your support.

P.S. Please don't forget to buy your sausages – it will help for next year. (hopefully!)

*Duncan*

# ROCKS AND RELAYS

My trip to Australia began when I got into the back of the "Morrison Van". We were on our way to Auckland to participate in the Auckland Area Championships and I was to be staying up there for the following week for a spot of training and good times with my friend Thomas Reynolds. The day of departure arrived, 28<sup>th</sup> September, and all of the team that was travelling from Auckland met up at the airport a few hours before our designated departure time. There was mixed vibes. Tom and I were going for our third time in a row so the excitement and awe of our first trip was long gone. We were still both nervous as we knew the trip would require new skills to be learnt. This happens in Australia because the terrain varies so much from place to place. Last year in Tasmania we were faced with very New Zealand type terrain which favoured our team. This year it was going to be rock, rock and guess what.... ROCK!

The first event (WA State Championships) was the most difficult I had ever run in my life. Tough terrain, tough courses, and much much tougher competition. The next event was the interstate schools competition; the one New Zealand is invited to as an 8<sup>th</sup> state and also the one that we all went to compete in. We had had varied results so far and Derek wasn't so pleased with the performance of the team so the pressure was on to show the Australians that we meant business for the 4<sup>th</sup> year in a row.

The day came and awesome results kept coming in, most of which you will already know. The next day was the relay and with the most loaded team behind him Thomas ran for our first leg in Senior Boys. Next was Simon. He left only seconds after the first team but returned miles in front giving me a comfortable margin to complete my course and return to the finish. As I passed through the spectator control two thirds of the way through my course the crowd was reasonably silent even though I was the leading senior boy. As I came to the finish control and began my sprint for the line the crowd was still reasonably silent. I had no flag waving behind me as is usual for the winning team. Instead all I got was a word from Andrew Peat who was the 4<sup>th</sup> senior boy in the New Zealand team. "Simon mis punched". My mind began to spin in disappointment and disbelief that Simon could manage to mis punch so many times in important relays. I couldn't handle talking to anyone because my vision was starting to blur. Instead I went for a nice long "recovery run" out along the road we came in on. It helped me to control my emotions and on return to the NZ camp I had a quiet word with Simon and forgave him because we all make mistakes.

Later on NZ and Tasmania protested that two of the controls were too close to each other meaning we were reinstated and won after all. Even though we won that day it doesn't feel the same because we didn't have the spectator support and we beat the other teams on a technicality. Hopefully next time I can come down the chute with the Flag flapping behind me.

The rest of the events flew by and somewhere in there I managed to badly sprain my wrist which hindered my running speed, (I know it sounds weird but it did), and then we were off home again. Another trip over and another set of memories to look back on in the future.

A big thank you needs to be said to the club which decided to support the juniors this year and gave us some sponsorship towards travel etc. So thank you HBOC for getting me to where I am in orienteering and I hope to put my own back in, in the not too distant future.

*Jack V*

# **RK CHALLENGE**

November 26, near Dannevirke

HBOC has had an annual inter-club challenge against the Manawatu club, Red Kiwis, since 1980.

**Be part of this year's challenge!  
We need white, yellow, orange & red  
course runners – the same points are  
awarded for all courses.**

To ensure as many club members as possible get there the club is taking mini-vans – so catch a lift to the event - \$7 per person.

**BOOK YOUR SEAT NOW!!**

Phone Geoff on 877 4870 or email [pamela.m@xtra.co.nz](mailto:pamela.m@xtra.co.nz)

Alternatively, if you wish to travel by car – here are the directions:

From the southern outskirts of Dannevirke  
8.6km south along SH2, turn **left** into Oringi Rd.  
13.8km along Oringi and Jackson Rds to T intersection, turn **left** into Hopelands Rd. 1.0km to T intersection, turn **left** into River/Kumeroa Rd.  
4.8km (thro' Kumeroa - blink and you'll miss it) turn **left** into Potter/Little Rd.  
3.0km along Potter Rd into Otawhao Station.  
Start times from 10.30am.

**SEE YOU THERE.**

NATIONAL JUNIOR ORIENTEERING TRAINING CAMP  
18 – 22 DECEMBER 2006  
ROTORUA

# Application form

(Stuff we need to know about you)

Name (the one your parents gave you) -

Name (the one your friends call you) -

D.O.B -

Address @ home -

Email -

Phone numbers -

☑ your parents - both home and work -

☑ your mobile (if you have one) -

○ Stuff -

Club u run ☑ -

Grade u run in this year-

How many years have you been Oing -

Medical bits -

1) R u on any medication? We need 2 know what it is and what it's ☑!

2) Do u have any injuries at the mo?

3) R u allergic to anything?

☑! Do u have any special diet needs that we should know about?

5) What is your doctor's name and phone number?

Stuff you want to learn from the camp. (write on more paper if you need to)

Let us know now so we can try and include it in the programme. That way u can get the most learning from the week.

Transport stuff

Will be arranging some transport to and from the camp from Wellington and Auckland. Let us know if you would be interested in jumping on board so we can work out numbers. If you live somewhere along the way we could pick you up as we go past. Another option is to get dropped off by your parents or bring your own car or fly in by helicopter. We need to know what your plans are.

Cost stuff

The camp will cost \$290 for the entire week including all maps, training, food, accommodation, transport at the camp. You might want to bring some extra for chocolate and ice-creams and to cover petrol getting to/from the camp.

Please make cheques payable to the NZOF and send to Flat 2, 10 Raurenga Ave, Royal Oak, Auckland, with this completed form.

---

Bit for your parent to sign.

Even though the camp is in the school holidays my child understands that there is a code of behaviour, the same as expected on a school camp, that must be followed. He/she also realises that if this is breached they may risk being sent home from the camp early at their own cost.

I ..... give my son/daughter ..... permission to attend the National Junior Orienteering camp at Tui Ridge, Rotorua, 18-22 December 2006.

.....  
Signed by parent/guardian

# Hawke's Bay Orienteering Club

## December Dash Rogaine

### 9<sup>th</sup> December 2006

Setter: Chris Howell  
Vetter: Alan Berry

Experience 85 square km of classic Hawkes Bay farmland with deep bush gorges and pine forest.

Spectacular views from the course, roughly 30km north of Napier.

More information and photos on [www.hborienteering.com](http://www.hborienteering.com)

**Entries close Monday November 27th**  
12, 8 & 4 hour options

#### WHAT IS A ROGAINE??

A rogaine is a cross country navigation event, in which teams of 2 to 5 people travel on foot across varied terrain using a topographical 1:50000 map and a compass. Teams choose their own route to visit various check points in any order. The check point is located from the map. For this event, a check point description fixes the final location of a standard orienteering control. Check points do not all have the same points value. The team with the most points wins.

For further information see the NZRA website: <http://www.rogaine.org.nz>

For more Information contact:

Chris Howell  
[info@prospectvineyard.co.nz](mailto:info@prospectvineyard.co.nz)  
06 879 5686

<http://www.hborienteering.com>

# Kaweka Challenge Update

Planning for the 2007 Kaweka Challenge to be held on the 24th and 25th of February is well under way. The next event will include a new duathlon course with a 16 km cycle race in the lakes car park area. Thanks must go to Dave Coe of Pan Pac and Lex Smith from the Heretaunga Tramping club for designing a challenging bike course.

Tim Anderson is doing an update of the web site so on-line entries will be available.

Ken Holst has taken over the important job of road safety and management at Kuripapango

Norris Cox has taken over publications and has done a great job revising the entry form and making up posters to advertise the event.

---

Alan Hughes has taken over the personal role for the orienteering club side and will be looking for volunteers to help with the event.

We are still looking for a secretary to take minutes at our meetings so if you would like to be involved in the Kaweka Challenge please give me a ring Ph 835 7082

Doug Matheson  
Event Controller

# KAWEKA CHALLENGE

## 24<sup>th</sup>, 25<sup>th</sup> February 2007

### We Need You!!

Volunteers to help at the event on Saturday and/or Sunday.

This includes general helpers and Marshals for either Saturday or Sunday or both - if you are real keen!

Overnight Marshals, to stay in huts, that will tramp in with Tramping Club Members (they will help with shortcomings in gear that you may require - e.g. cooking gear; sleeping bags etc) and they promise that they will not lose you!!

---

Each year this event supports both the Orienteering Club and the Tramping Club through fundraising and promotional opportunities. This relies on the manpower and backing of members from both Clubs - so get in behind it!!

Contact Allan Hughes email [bhaven@xtra.co.nz](mailto:bhaven@xtra.co.nz) or phone 8749650 to register your enthusiastic interest now!

# JUNIORS LOOK!!

2007 HAWKE'S BAY ORIENTEERING CAMP

January 29 – February 1, 2007

Calling all orienteers of intermediate school age or older who want to move up to yellow, orange or red level. The aim of this week is to upskill so you can move on to the next colour level with ease. As usual we will be using some coaching expertise from outside the club.

Accommodation will be at Moore Road camp, near Havelock North in bunkrooms and all meals will be provided.

The camp will commence at 1.30pm on January 29. A programme will be forwarded to participants a few days before the camp.

The cost of the camp will be \$45. (\$90 is the full cost, which is subsidised 50% for club members who have not received a camp subsidy since 1 November.)

If you wish to participate, please complete the form below and forward with your payment (cheques made payable to HB Orienteering Club Inc.) to Geoff Morrison, 27 Margaret Avenue, Havelock North by January 25, 2007.

## HELP NEEDED!

To make this camp happen the support of parents/caregivers is required. Assistance is needed with:

- Transport during the camp – daily from the camp to the maps used for training and to the event on Wednesday evening.
- Cooking evening meals and grocery shopping.
- Female care and supervision of the camp participants.

For those who are happy to stay at the camp, accommodation will be in the bunkrooms or alternatively, there is plenty of space for camping. You are welcome to share the fine meals which will be provided.

## Te Mata Teams Event

The Teams Event is a once a year event, the idea being to do something a bit different, a bit more social and fun, with no pressure to add points to your OY or score event tallies.

I enjoyed setting the course, Te Mata Park is a special place and after scrambling over much of it checking out possible control sites I got to know it a lot better. It was similar in many ways to setting a score event, with a scatter of controls all over the map, trying not to make any obvious routes or loops. I wanted a good spread, with three runners per team I didn't want people getting back too quickly, also being conscious of keeping controls suitable for yellow and orange grade runners. I suspect the trig station was not popular but the view is so breathtaking I felt I should share it with you.

After the maps were finally printed and I could no longer keep making last minute alterations, the nerves set in a bit.... is it too easy? Will the teams finish too quickly? The white course looks too short!  
A relaxed and unflappable vetter ( Dave Fisher ) was helpful here.

It all turned out well - the day was fine, there was a good turnout, people enjoyed it and I figured out how to use the finish clock/timer before the first finisher arrived. Everyone did well getting organised into teams - some had some great names, others of you could have used your imaginations a bit more!

I'll finish with a few pointers for other first time setters / caravan users...

- consider wheel chocks for the caravan. Ground that looks flat can be deceptive.
- If you are over six feet tall and crouching down in the caravan, don't stand up suddenly
- Don't dig too generous and wide a hole for the toilet. The combination of a large hole and soft ground raises the scary possibility of the toilet sinking underground when weight is applied.
- Finally - don't take the caravan keys into the caravan and then leave without them without snibbing the lock on the door. If the door accidentally closes there is no handle on the outside.

Thanks to vetter Dave Fisher, Emily and Kate in the caravan, the Mitchell family for help with control collection, Geoff and Pamela for helpful advice and to everyone else who helped that I didn't see.

*Mark Irwin*

# TANGOIO OY4

17th September 2006

Setter: Steve Armon Vetter: Pamela Morrison

## Red Long 5.38km 300m climb

Jack Vincent	86.16
Hamish Goodwin	87.41

My fourth and last experience as setter was the OY at Tangoio. I have just re-read Chris Howell's report in the May-June 2004 Compass Points and suggest that readers have another look at it too. Like Chris, I think this map will shake down into one of our best, and as a very technical forest map it provides excellent variety from our open farm and rock maps - it will be a jewel in our crown. It is a very slow map to run on (if run is the right word) and members will seldom have done courses as short as this year's OY there and still taken as long as they did.

Like Chris, I suggest that it needs re-mapping to bring it up to standard. It's not a map you can set courses on while sitting in your lounge - once you visit them, you find so many legs are spoiled by tracks or vegetation, and so many control sites are unusable because someone has moved all the rocks and cliffs around since it was mapped (sorry, mapper).

Chris, of course, had it easy. He seems to have had good weather and doesn't suggest that setting his courses took six days out there, as it did for me. I picked the finish and parking area pretty quickly and set about planning courses from a start on the road junction just through the gate from the finish. White, yellow and orange could work (albeit with compromises), but red just wouldn't - there is so much blackberry in the flat areas near the finish, and avoiding it seemed to require pointless climb and pointless legs. Pamela, as vetter, stepped in with the solution of walking everybody up the road to a higher start point.

The gods tried to tell us that the event was not supposed to happen, but we ignored all the signs. Like Pamela losing her water bottle. Like having to abandon the original starting point and beginning again a week out from the event. Like checking control sites on a day so wet and cold I had to just keep walking to keep up the body heat - stopping for lunch was out of the question. Like calling in Geoff on a work day to map all the tracks that were going to affect the courses - he didn't cheat by getting this advanced preview of the area, did he? just check his time for the event. Like Pamela puncturing her mountainbike. Like getting the key for the gate padlock from Pan Pac for the Thursday before and finding they had given us the wrong one. So cutting short the day while still not having figured out how to get the red courses down the hill to the finish, just so as to get back to Pan Pac in working hours.

All of this and more meant the final control site decision was made on Saturday the 16th at 3.58pm - that the second to last red control would go in the top of a shallow re-entrant on the side of a spur, even if the blackberry blocking the obvious route out turned it into a dog-leg - they'll be too tired to care. Then home to the warmth of the fireside? No chance. Home to do master maps and control description sheets.

The turn-out on the day was fabulous - a quick count says 122. The weather was fabulouser. We ran out of control descriptions for some grades and maps for all grades. The finish area provided a nice picnic atmosphere. Some people were even nice about the courses afterwards.

Winning times weren't too far off for Red Medium (51 minutes), Red Short 42 minutes), Yellow (34 minutes) and White (21 minutes). Red Long was won in 86 minutes with a great run from Jack who beat Hamish by a minute and a half. The Red Long was very demanding, but produced only one DNF. The Red Medium and Red Short also had one DNF each, so the red courses were certainly testing but not impossible. It was the Orange that caused the most problems with 80 minutes being the norm and four failing to finish - the tracks were always there for the Orange people, but there was reward for those who thought they were good enough to go cross country; or disaster if they weren't really.

Tangoio is a challenge for everybody, and very satisfying for those who measure up. There were great runs from Rolf Boswell (to beat Scott by four minutes), Rachel (to win the women's grade decisively by nearly 3 minutes from Kate), a great run from Jaime; Jamie and Aari were well clear of the rest in the Red Short. Well done Maddie Parker, who chose a tough one for her first Yellow and Avril who got round her first Red Medium. Craig and Sean had very good runs on the White.

Thanks to all those who helped on the day, especially those wicked control collectors who thought we should close the course on Derek and Peter.

Steve

# An Interesting Day at the Races

A lovely day at Tangoio with a 'healthy' walk to the Start. To occupy the time usefully I read the map as I walked. Quite interesting to see the various features appear where they should be.

A family were mountain biking in the forest. Just as I approached, the Dad reached the top of a small hill and seemed to try one of those complete head over heels somersaults that we see on the telly. He kind of stopped somersaulting part way through and landed flat on his back...extremely winded, his expression showed a feeling of wonderment at how he happened to be where he found himself. My first concern was to his wellbeing, but as the rest of his family were falling about laughing fit to split, I figured he must be okay.

So, onward and upward to that amazing Start position. I checked later with Pamela that it was intentional. How many were sucked into trotting off on the wrong track? I sensed something was wrong and sure enough I was heading in the wrong direction 20m from the start triangle!

I did my usual hit and miss orienteering until heading for No.5 I stumbled on a dead tree. Looking down I had a cut just above the gaiter. There didn't seem to be much blood, so I thought I'll clip 5 and have another look. No blood at all, so onward to the Finish. Took another look and it was a stitch job. I had arrived late to help collect controls but realised I wouldn't be doing that. Because I was late to finish all the Doctors, Nurses, Anaesthetists and Physiotherapists had gone home...but wait...here comes the Jones boy galloping out of the forest. Chris had seen my cut and suggested to Colin that he have a look.

Colin had a look, went to his car, came back with a small bag of bits, washed the wound with antiseptic, a needle went in a couple of times, so then I do not feel the stitches. I don't watch needles... I was steadfastly concentrating on my beetroot sandwich.

Great. The job was done. Pauline came off the bench to collect controls in my place, so I just went home instead of going to a surgery in town. We can't complain about the service. Get a bee sting and a helicopter whizzes out from town and back to the hospital. Sausage, onions and tomato sauce, fizzy drinks, chocolate. Move onto the bakery with caramel slice, banana cake, carrot cake and I don't know what else. So, it was an interesting day at the races thanks to Pamela and Steve, and the service was wonderful. Thank-you very much Colin.

*Stewart*

# OVER THE HILL

October 1, 2006

Planner: Murray Richardson Vetter: Richard Lynn

## Red Medium (4.6km, 190m)

Geoff Morrison	43.33
Rolf Boswell	49.17
Pamela Morrison	55.19

Emma Boswell	64.46
Blake Boswell	64.46
Jayden Hughes	70.07

competing well; while at the other end of the age spectrum, Stewart, Alan, David and Ted proving that orienteers are never "over the hill."

Congratulations to: Geoff, Rolf and Pamela for podium finishes in the Red Medium; Bryan, Callum and Mark in the Red Short; Neville, Grant and Cameron in the Orange; Craig, Thomas and Sean in the Yellow and to Richard, the Hone family and Katrina in the White.

The Florence Nightingale award for the day goes to Kirsten Hughes who stopped mid-course to assist husband Allan back to the start line after finding him with a badly pulled calf muscle. I hope it is coming right Allan!

At the end of the day I thoroughly enjoyed setting for this event and I am very grateful to the guidance, advice and help I received from Richard. The 'veter – setter' system works so well and novices like myself could not even attempt to set a club day without an experienced veter working in tandem. Well done Richard!!

Thanks also to Pam for saving my bacon twice prior to Sunday and to Rosina Millman, Georgia Richardson and Thomas Richardson for operating the caravan and helping throughout Sunday. It is great the way that club members jump in and assist with the clean up, gathering controls and the myriad of little jobs that make the day go so smoothly and I am indebted to you all for your cheerful help.

---

Worst moment: 6:45p.m Friday night September 29, Rush Print closed for weekend and I have forgotten to pick up the maps!!! (Thanks Pam and Vanessa for saving the day!)

Best Moment: Seeing competitors finishing with a trace of a smile on their face!!

Second Best Moment Lining up all your controls at the end of the day and realizing that they are all back in!! (Thank you control gatherers)

Third Best Moment That cold beer, back home on Sunday night!!

*Murray*

Six weeks out and I received a call from Richard Lynn introducing himself as my 'Vetter' and inquiring as to whether I had given any thought to the Club event which I was due to run in October. Truth was I hadn't stopped thinking about it since seeing my name in the fixtures list in April. With Richard's call I knew that it wasn't a joke and I was actually going to be responsible for sending people out into the wilderness!!

Time flew and what transpired was a fantastic opportunity for Professional Development in Orienteering. I received an insight into how 'real' orienteers think, as Richard explained over the ensuing weeks why this control needed to be moved and why this re-entrant was better than the other etc. Not only did I start dreaming about contour lines, but I transformed into a 'land-watcher.' Now whenever I drive anywhere (much to Jude's horror) I can't help but point out and admire: re-entrants, spurs and other prominent land forms as we flash past!

Condes is a wonderful piece of software (almost fool proof) and the courses seemed to come together, on paper, quickly. However, our first major walk over the map suggested that a number of course changes were vital: some features had changed through land movement; we also found better features and at times needed to tuck controls out of the line of sight. This first visit was a chilly experience and winter was at its best with an unrelenting southerly hitting us whenever we emerged from a gully. It was of some relief to know that we weren't the only foolhardy ones out in this weather as we realised Pam and Steve were dicing with hypothermia up at Tangoio. It is a sobering thought, and a tribute to the club, to realize that on any given weekend there are more than likely to be two sets of club members out on reconnaissance somewhere in the Bay.

After second and third visits, in much nicer conditions, Richard and I were philosophically happy with each course. Accordingly, it was around to Pam and Geoff's to iron out the Condes versions. Actually Pam took one look at the mess that I had created and decided to start from scratch!! Two hours later we had maps for each course with control numbers and control descriptions ready for the printer.

Richard and I took two days to set the courses out, with the Red Medium and Red Short going in on Friday and the White, Yellow and Orange on Saturday.

Sunday arrived and it was one of those brilliant Hawkes Bay days where sunscreen and plenty of liquid were paramount. Daylight saving meant an extra early start, but we managed to have everything ready for the starting gun with half an hour to spare. Tough running conditions and plenty of uphill slogs seemed the order of the day and it was good to see that everyone who started was accounted for by mid afternoon. Most notably, it was great to see our younger members moving up a grade and still

Rotoma being close to both Stewart Hyslop and myself meant we could take our time and several trips to map our courses. Eight weeks out I organised Condes and the map file off Pamela and approached Stewart, who got me sorted on the procedures we would follow. I started by looking up the old maps and Compass Points for ideas on course speeds and distances. The centre of the map gave the best start point with the most options for directional choices.

Stewart and I then spent a couple of super days of leisure wandering around Rotoma trying to map actual control sites from my highlighted areas. Hope you all checked out the vistas as you ran around sweating!!

---

Snapping a tendon at 'Over the Hill' meant I then had ample time to come to grips with Condes; and left a lot of the setting out to Mark Irwin and Stewart.

A last minute fence removal on the white course 3 days before the event was the only spanner in the works and race day seemed to go off with minimal stress.

Thanks to Graeme Wedd - 'Rotoma'; top bloke - Stewart Hyslop for making things easy; Pamela Morrison for the map work; Rachael Goodwin for bailing me out at the finish table and all the other helpers on the day.

*Alan*

## MASH

About four weeks before the event I asked the landowner if he would like to see where we were going to put the controls. He wasn't concerned and neither was I. I could see he practised set stocking - which means the animals stay mostly in the same paddocks - and there are not a big number of them in one particular paddock. I also described where we would have the event centre. That was fine. So far so good.

Imagine our consternation when we arrived on Saturday to put out the controls and find that where you parked your cars on Sunday resembled a scene from the TV series 'Mash'. If you don't know what I'm talking about, ask your parents.

There was a helicopter whirring away, trucks, men, piles of 'stuff' partially covered with green canvas tarpaulins. The only thing missing was 'Hot Lips Houlahan' ...more's the pity.

Graham Wedd came over with a smile on his face to assure us that 'it' would all be gone by teatime. We breathed a sigh of relief just slightly tinged with a smidgeon of doubt. He then told us they had taken out a fence and put in another... just over there - he pointed. Did it affect us? Well it did actually. It was smack bang in the middle of our White course!!! Ah, well, nothing a bit of tape wouldn't fix.

Mark Irwin helped me put out the controls. He was initially meant to be our helper. To reap some benefit from the situation, I suggested he go to where he thought the middle of the circle was. Great training exercise. He would say "I think I'm there now", and I'd say "Right, just be careful of that pile of stones immediately behind you".

I think this ranks as the easiest event I have ever had anything to do with. Alan did all the map work with the aid of Condes. I was spared from drawing the master maps late on Saturday with my trusty stencils. Kirsten carted the caravan around. And Alan is so good on detail. He noticed all my 'deliberate' mistakes. By the bye, do you think he is descended from the Neanderthals? He tears muscles that we do not have!!!

Thanks to the Anderson family, Philip Baker, and Rob Poulgrain for control collection as well as all the other helping hands.

*Stewart*

Geoff Morrison	78.24
Jack Vincent	82.52
Derek Morrison	93.59
Chris Howell	96.50
Richard Lynn	113.50
Amber Morrison	DNF
Mirko Zatezalo	DNF
Colin Jones	DNF

Well, what to start with!!

Dad and I started planning this event when we went over to Australia. What a way to spend a holiday! Our plan was to make the courses both physically and mentally challenging, and I think that we succeeded considering that many of the times on the day were well over the hour!!!

So when we came back from Australia it was time to go and check all of the control sites. What a mission that was. It took us 5 hours to check them all and change a few and even after all that time we still weren't completely satisfied, so when we went home we tried to re-do some of the courses. But the problem was that I go to boarding school, so a week before the event we still hadn't completed the planning stage!! On the Friday night before the event Dad and I sat down and completed the courses. The next day we went out to put the controls out. Not only did this take 6 and a half hours, but we also had to create paths through the gorse, and I had to cope with Dad falling over every 10 minutes (because the tree root jumped up at him or the ground was covered in dew-It was never his own fault!!). That night we got all the maps and control descriptions ready.

In the morning when we drove out to Smedley, Dad couldn't get the first sign into the ground. It was "the sign's fault"- sound familiar, so out came the hammer!!

Then the Event. I would like to congratulate all those who took up the challenge of the gorge!! Being on the finish I got to see the state that people came back in and overall I can say that most of the people looked like they could go no further.

With control collection many interesting things happened – like leaving a control off the master map and forgetting to collect it!!! But just a few things that were worth a mention!! Firstly with me and Kate. We drove over to the far side of the map and collected some controls and on our way back we saved a lambs life-well we claim that we did. We acted like true farmers and pulled it out of the blackberry on a bank!! Another thing that I would like to mention is the music that we pumped out of the car to pass time –the opera!! I would like to thank Jack for the comment that it was harder than Perth, Geoff and Pamela (who collected so many controls), Louise (Mum) who made my job so much easier with the caravan and also Derek, Kate and Duncan for control collection. And last but not least I would like to thank Dad for helping me through the event!!

*Rachel*

**HAWKE'S BAY ORIENTEERING CLUB**  
**2006 "ORIENTEER OF THE YEAR" SERIES**

Points to date in the 2006 "Orienteer of the Year" series.

Six events are classified as "OY" events during the year. The winner of each course (men & women) each receive 25 points and points are allocated to other competitors based on times compared with the winner.
