Preface

There are five documents making up the club history.

1. Club Officers, Cups & Trophies
This is effectively the clubs “Trophy” boards. Lists are kept of the Club Officers, Life Members and Cup / Trophy winners for each year.
Club Age Grade champions and Junior Certificates are not listed. You will need to go through the old Compass Points or Minutes of the AGM’s .
2. General Timeline
Lists the club officers and committee, subscriptions and map fees, maps, equipment and highlights for each year.
(Note that the year in which a map was made may be wrong by one year.)
3. Major Events
Lists the “Major” events the club has undertaken. This includes any NZOF badge events, Course Setting Competitions, Mountain Marathons etc., plus any “special” events run by HBOC (eg) Macpac Kaweka Challenge, Smedley Long O.
4. Mapping
Lists all the maps made by the club.
5. Results
Lists all the HBOC event results, not including “major” or “badge” events.

The first attempt to record the clubs history was by Colin Tait in the mid 1980’s.

The four documents making up this club history were first compiled in 1999 from the following sources...

- Compass Points. There is a copy of every Compass Points magazine in the club archives.
- HBOC Minutes. The minutes for most meetings and AGM’s are in the club archives. Minutes for 1977 to 1981 are incomplete. Minutes for 1982 to November 1984 are missing.
- Presidents and Treasurers reports to the AGM’s held in the minutes and also separately.
- Programmes and Results for major events. The archives are missing the programmes and results booklets for most events prior to 1988.
- Colin Tait’s notes on the years from 1979 to 1985.
- Members memories.

HBOC Major Events

There were problems gaining access to the Whanawhana map due to lambing. The setters/vetters weren't allowed on to the property until one week before the event.

All three days of the event were held in extremely windy, but dry, conditions. This weekend saw the first use of the new club caravan.

The Slump map was printed at 1:10,000 with contours, slope lines and knolls reduced to 80% of the standard line widths for a 1:10,000 scale map, due to the intricate contours and many small depressions and knolls.

On The Slump, the event tents were shifted off the airstrip into depressions. Three runners didn't make it back before the controls were lifted and a number of runners were charged by a mad cow, which managed to knock over one person. The club president, Hamish, went out with a stick to distract the cow while runners went past. The controls from here were needed for the Deco Dash event in Havelock North village.

On the Deco Dash event it was discovered, at a very late stage, that course 4 maps were printed for both course 4 and course 1, hence no course 1 maps. Problem was solved by Pamela scouring Hastings shops for a supply of 100gsm paper, at 4:58pm on Saturday, which she fortunately stumbled across. She was then able to use her works colour laser printer to print the course 1 maps.

At Whanawhana the event tent was put up the evening before the event, however strong winds overnight blew it down and damaged it enough to prevent it from being used. The finish for the two Whanawhana events was at a table, sheltering behind a van.

A few notes...

- We set records for the number of competitors at an NZOF National Championships. 570 entered on 300 entry forms.
- HBOC was by far the largest club with 161 competitors, Wellington was next with 83 competitors.
- The organisers and helpers wore special green T-shirts, so were easily recognized in the crowd.
- All the course setting was done with the Condes course setting software.
- The course 1 & 2 maps were to IOF WRE standards, so were process offset printed. Those maps cost approx. 5 times more per A4 page than a normal laser printed colour map. (ie) \$3.00 compared to \$0.60
- The course 1 & 2 maps for elites were printed with fences on them due to IOF WRE rules, which caused a lot of dissention amongst the course setters and controllers.
- The diner was held at the Napier Golf Club, Waiohiki.
- Entries dribbled in very slowly until 1 week before the late fee deadline. We received 60% (180 entryforms) in the week prior to late fee being applied and a further 3% (9 entryforms) after late fee applied. (These figures are a count of entryforms and there were an average 1.9 competitors per entryform.)

A few notes...

- Oceania Carnival was held between January 4th and 13th 2013.
- The Carnival was organised by a committee from all the WOA clubs.
- There were Oceania Middle, Long, Sprint and Relays, plus, two warm-up and two warm-down events.
- HBOC ran the two warm-down events.
- Mixed in amongst the Oceania events were the ANZ Challenge, ANZ Schools Challenge.
- There were also three World Cup races for selected elites, Long, Sprint and a combination of Prologue & Chasing start.
- Oceania had over 900 entries with 600 at each event in HB.
- All maps were printed on waterproof 'Tyvek' paper.

The Sprint in Hastings Central required special traffic management planning and council approval.

The Middle distance map was originally to be the new Mangatarata (Mt. Herbert) map near Waipukurau, however the forest was pruned, much to our surprise, two months before the event. Plan B was to use the Arborfield map, courses were planned, but problems with parking and event centre location ruled it out. Plan C was to create a new map of the old Rowe Road/Phillips Bush area. Plan C worked.

Hautope was a new map, but it had it's problems with access being a narrow, no exit, shingle road and limited event centre sites.

All events required Health & Safety Plans.

Major Events

February 1988, Ruahine Mountain Marathon

Organiser	Ted Sapsford
Co-ordinator	Peter Watson
Map	Part of NZMS 260 – Sheet U21 1:50,000
Setter	Ted Sapsford
Controller	Colin Tait
Dates	20 th – 21 st February 1988

Course 1	41Km and 2760m climb, 28 two man teams.
Course 2	39.5Km and 2120m climb, 56 two man teams.
Course 3	29Km and 1900m climb, 45 two man teams.
Course 4	22Km and 1060m climb, 43 two man teams.

Courses 1 & 2 were two days with an overnight camp. They started from Otupae Station on the western side of the Ruahine ranges, stopped at Ruahine Corner for the overnight camp and finished at P.Allen's property on the eastern side of the ranges, inland from Kereru.

Courses 3 & 4 were separate one day courses that started and finished at the same place each day, Day1 at Otupae and Day2 at Kereru.

The course planning took Ted Sapsford two out of every three weekends, for 21 months, to organise. Checking out potential routes then setting control sites and making any necessary map corrections. Many of these weekends required overnight stays in huts and campsites in the ranges.

The courses crossed the following properties...

Otupae Station, Mangaohane Station and Aorangi Awarua Trust - on the western side.

Ruahine Forest Park – in the middle of the ranges.

Big Hill Station, Thorn Flats and three smaller farms - on the eastern side.

HBOC Training Camps

HBOC Junior Camps

The club has held multi-day junior training camps at the Moore Road camp, near Havelock North, for a number of years, starting in January 2002. The club subsidises the cost, often by 50%.

HBOC supported events

Events supported by the club, but not organised or run by the club.

Sprint the Bay

A series of six sprint O. events held over three days, organised by club members Duncan & Kate Morrison and family as a fundraising exercise. (They need funds to get to JWOC in Europe.) Some of the events were also part of the national Super Series.

They created a number of new Sprint O. maps and updated some club maps to Sprint O. standard.

Mini Mountain Marathon, Long O. and Rogaine's

Mt. Carlyon mini mountain marathon (1987)

Organised by Peter Watson. There were 6 entries at the closing date., so Ted Van Geldermalsen (WOA), Ted Sapsford (HBOC) and Russell Perry (HTC) prodded and bullied their club members and the final result was 21 entries (34 competitors).

	Long Course	13.3Km and 563m climb, 11 entries
	Short Course	8.5Km and 367m climb, 10 entries

Pukenui mini mountain marathon (1990)

Organised by Bruce Perry at the suggestion of the Heretaunga Tramping club for another event similar to the event organised by Peter Watson in 1987. There were four entries at the closing date for this event, but with a little coercion this was increased to 15 entries (19 competitors). There were three courses planned, however the "C" course was scrubbed due to lack of entries. The area covered Pukenui Station and the four neighbouring farms

Smedley Long O. series (1992-1996)

Another "brainchild" of Ted Sapsford. Ted always thought Smedley was a wonderful place and wanted others to enjoy it as well. When the manager of Smedley, Jerry Jeromson, asked "Why do you only use the little bit of the station at the front, when there is another 8000 acres?", Ted's imagination started working. After 17 days wandering around Smedley Station the control sites were in place and the map corrections made. The result was the Smedley Long O.. A one day event with a choice of long or short courses (ie) 30 Km to 10 Km. This was normally run as the "Smedley Medley" event. A club event or Short O. was held on the Saturday and the Long O. on the Sunday, with the option of staying the night in the shearers quarters at Smedley Station. The map for the Long O. was an updated, laminated A3 copy of the DOSLI 1:50,000 scale map with 20m contours.

Kaweka Challenge

Overview

After the 1988 Ruahine Mountain Marathon there was one in January 1989 at Craigieburn in the South Island, prior to the 1989 APOC event. Then the Mountain Marathon events fell by the wayside. The Macpac Kaweka Challenge was set up to fill the gap. The MKC was not designed to replace the Mountain Marathons as it was primarily a track “run” with no route choice. You have to navigate to ensure you follow the correct track, but you must not deviate from the designated route. It was designed to encourage new comers to venture out into the hills under “controlled” conditions. The theme being to participate and complete the course.

The MKC was the “brainchild” of Ted Sapsford. The first event was organised by Ted from scratch in under 6 months, after the 1990 Mountain Marathon event was cancelled. It has been a joint effort by both the Hawkes Bay Orienteering club and the Heretaunga Tramping club in Hastings. The orienteers generally provide the organising skills and the tramping club the manpower. The Hawkes Bay Amateur Emergency Radio Club has provided the radio communications between the sites. The radio club has generally been paid a fixed amount and the profits split 50:50 between the orienteering and tramping clubs.

The events main sponsor was Macpac from inception in 1990 to 2003, hence the event was called the “Macpac Kaweka Challenge”. In 2004 the main sponsor changed to Marmot and the event was renamed the “Marmot Kaweka Challenge”.

The map is a licensed copy of the relevant part of the NZMS 260 series Sheet U20 “Kaweka”. Updated by the orienteering club and printed on A3 paper and laminated for protection.
